INSTITUTE ELECTIVES FOR M.TECH./M.PHIL PROGRAMME

With the introduction of 2-year M.Tech. Programme from the 2002 Batch, the Senate approved the proposal of Ballal Committee Report, which introduced a course to be taken under Institute Elective/ Course outside department.

The recommendations of the Committee is as follows:

Institute Elective:

Every student is required to take an Institute Elective as part of his/her course work. Institute Elective option will be available in both semesters and different sets of courses will run in the two semesters. Students cannot take those courses in the list of Institute Electives, which are closely allied to their disciplines.

Courses outside the Department:

Every student is required to take a minimum of 6 course credits outside his discipline. The Programme Committee (PC) can set a higher minimum (PC option). If the minimum is set as 6 credits, for a programme, then it will be the Institute elective. PCs should also decide about the minimum number of credits a student should take from his own major discipline.

The list of courses running for the **Spring Semester 2011-2012**, approved under Institute Elective is enclosed herewith.

This is for information and necessary action.

Dy. / Assistant Registrar (Academic)
