

Dated: October 15, 2018

Dear Prospective Students,

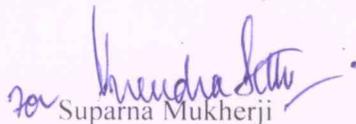

Thank you for choosing IIT Bombay and applying to CESE for admission to the PhD programme. Heartiest congratulations for being short-listed for the written test!

Please read the following carefully:

1. The admissions procedure will consist of a written test, followed by an interview of candidates who clear the written test. The written test and interviews will be held on **Thursday, 6th December and Friday, 7th December, 2018**.
2. Please report to **LC101, 1st floor (situated in Lecture Hall Complex)** by **8:30am** on **Thursday, 6th December 2018** and get yourself registered for the written test. Please note that written test will not be conducted for any candidates reporting after 9:00am under any circumstances.
3. The written test will start at **9:00am** on **Thursday, 6th December 2018**. The list of candidates shortlisted for the interviews will be displayed by 11:45am and the interviews will commence 12:15pm onwards. The interviews will continue on Friday, 7th December 2018 as well.
4. Please note that **Mathematics at 10+2 (intermediate) exam is a mandatory requirement** for admission to the PhD programme at CESE. If you are short-listed for the written test but do not meet this criterion (sometimes we may not have the information during the screening and short-listing of applications), please know that you would not fulfil the minimum eligibility requirement for CESE and cannot be admitted to the programme. Hence, **if you do not have Mathematics at 10+2, we advise you not to appear for written test/interview at CESE** to avoid any disappointments later.
5. Bring all your original documents including your BE/BTech/MSc/MTech **thesis** and **grade sheets** along with you on the days of the written test/interviews.

Wish you good luck, and look forward to interacting with you during the written test/ interview on 6th and 7th December, 2018.

With best wishes,

Suparna Mukherji
