INDIAN INSTITUTE OF TECHNOLOGY BOMBAY

Information Brochure
Ph.D. Admissions
2019-20
CONTENTS

i  Important Guidelines for Ph.D. Application
ii  Important Dates for Autumn and Spring Semester Admission

A)  GENERAL
A.1)  The Institute
A.2)  Research Facilities
A.3)  Student Amenities
A.4)  Ph.D. Programme
A.5)  Eligibility Criterion for Admission
A.6)  Application Categories and Financial Support
A.7)  Admission Procedure
A.8)  Payment of Fees and Deposits
A.9)  Registration for the Ph.D. Degree
A.10) Confirmation of Registration
A.11) Submission of Thesis and Award of Degree

B)  INFORMATION ON DISCIPLINES AND ACADEMIC UNITS
B.1)  Aerospace Engineering (AE)
       [Department of Aerospace Engineering]
B.2)  Biosciences and Bioengineering (BB)
       [Department of Biosciences and Bioengineering]
B.3)  Chemical Engineering (CL)
       [Department of Chemical Engineering]
B.4)  Chemistry (CH)
       [Department of Chemistry]
B.5)  Civil Engineering (CE)
       [Department of Civil Engineering]
B.6)  Climate Studies (CM)
       [Interdisciplinary Group in Climate Studies]
B.7)  Computer Science and Engineering (CS)
       [Department of Computer Science and Engineering]
B.8)  Design (ID)
       [Industrial Design Centre (IDC)]
B.9)  Earth Sciences (ES)
       [Department of Earth Sciences]
B.10) Educational Technology (ET)
       [Interdisciplinary Programme in Educational Technology]
B.11) Electrical Engineering (EE)
       [Department of Electrical Engineering]
B.12) Energy Science & Engineering (EN)
       [Department of Energy Science & Engineering]
B.13) Environmental Science and Engineering (EV)
       [Environmental Science and Engineering Department (CESE)]
B.14) Geoinformatics & Natural Resources Engineering (GNR)
       [Centre of Studies in Resources Engineering (CSRE)]
B.15) Humanities and Social Sciences (HSS)
       [Department of Humanities and Social Sciences]
B.16) Industrial Engineering & Operations Research (IO)
       [Interdisciplinary Group in Industrial Engineering & Operations Research]
B.17) Management (MG)
       [Shailesh J. Mehta School of Management]
B.18) Mathematics (MA)
       [Department of Mathematics]
B.19) Mechanical Engineering (ME)
       [Department of Mechanical Engineering]
B.20) Metallurgical Engineering and Materials Science (MM)  
[Department of Metallurgical Engineering and Materials Science]
B.21) Nanotechnology & Science (NT)  
[Centre for Research in Nanotechnology & Science (CRNTS)]
B.22) Physics (PH)  
[Department of Physics]
B.23) Policy Studies (PS)  
[Centre for Policy Studies]
B.24) Systems & Control Engineering (SC)  
[Interdisciplinary Group in Systems & Control Engineering]
B.25) Technology and Development (TD)  
[Centre for Technology Alternatives for Rural Areas(CTARA)]
B.26) Urban Science & Engineering (US)  
[Centre for Urban Science & Engineering (C-USE)]

C) APPENDICES

C.1) Fees and Deposits
C.2) Sponsorship letter for full-time candidates
C.3) Employer's Letter in case of candidates joining Ph.D. programme on Study Leave
C.4) Sponsorship Certificate for External Registration
C.5) No Objection Certificate for College Teacher
C.6) Statement of Purpose for Ph.D. Application (SoP)
I. Important Guidelines for Ph.D. Application

1. Please read the instructions given in the brochure carefully before filling up the application form.

2. **Online** Application Form & Information Brochure (including the admission schedule along with the important dates) is available on the Institute website at the following link, http://www.iitb.ac.in/newacadhome/phd.jsp

You are required to submit the application **ONLINE**. No Downloadable Forms will be available. After filling the form, you are advised to take a print of your application and keep the same for the record.

3. The application fee is as follows,
   - Women candidates: Rs. 150/-
   - SC/ST/PwD category candidates: Rs. 150/-
   - All other candidates: Rs. 300/-

The fee is to be paid by SBI Internet Banking/Online Payment System and you do not have to submit the printed copy of the application. **Applications without online payment details will not be considered.**

**APPLICATION FEE IS NON-REFUNDABLE.**

4. You can apply for up to **THREE** disciplines/specialisations.

5. (i) Along with your application, you have to submit a Statement of Purpose for all academic units.

(ii) If you are applying to Management (SJMSOM), you are required to submit research proposal (1500 words) on a topic of your research interest in place of Statement of Purpose. The proposal should contain (a) problem identification, (b) brief review of literature, and (c) proposed methodology.

(iii) If you are applying to Department of Humanities & Social Sciences, Policy Studies, CTARA or CSRE, you need to upload Statement of Purpose as well as a research proposal along with the application form. The Research Proposal for applying to Policy Studies, Technology & Development (CTARA) should contain (a) problem identification, (b) brief review of literature and (c) proposed methodology. The SOP for CSRE should refer to one or more topics of interest FROM THE LIST of topics announced on CSRE webpage https://www.csre.iitb.ac.in/phdTopics.php

(iv). Candidates applying to IDC are required to submit a SOP along with a 1500 word proposal that should specify (a) research area (b) brief review of literature and (c) methodology. The candidates have also to submit a recent work or paper related to their area of research.

(v). Candidates applying to Educational Technology are required to submit a Statement of Purpose containing (a) your interests and motivation for applying to ET (max. 50 words), (b) relevance of your recent and current activities (max. 200 words), (c) details about your academic interests including (but not limited to) your areas of interest, a problem that interests you, and what you plan on doing after completing your Ph.D. (max. 250 words).

6. You should complete the application form in all respects. Incomplete application will not be considered.

7. **You MUST** upload the following while submitting the Ph.D. Application.
   - Scanned version of photograph.
   - Scanned version of signature.
   - Mark-sheet of the last semester/Consolidated mark-sheet of the qualifying degree. Result awaited candidates have to upload their latest/previous semester mark-sheet.
   - Caste Certificate (OBC-NC/SC/ST), if applicable. An affidavit for having applied in case the certificate is not yet received.
   - EWS certificate, if applicable An affidavit for having applied in case the certificate is not yet received.
   - PwD Certificate, if applicable.
● Sponsorship certificate, if applicable.
  (please upload Sponsorship Certificate. If not available then attach Self-Declarant letter stating that the sponsorship certificate will be given at the time of Interview/Admission).
● Statement of Purpose (SoP), a sample of writing (if applicable), research proposal (if applicable), as a single file irrespective of the number of disciplines/specialisations.

8 OBC candidates may note that the limit of annual income is Rs. 8 lakhs for determining the creamy layer among Other Backward Classes (OBCs) candidates.

The OBC-NC certificate issued for the financial year 2019-20 by the Competent Authority in the prescribed format must be uploaded in the ONLINE application form and submitted at the time of admission.

The OBC reservation update Information is available in the public domain http://www.iitb.ac.in/newacadhome/phd.jsp under OBC Reservation Update.

9 Economically Weaker Sections (EWS) candidates may note that the limit of annual income is Rs. 8 lakhs for determining the eligibility for benefit under Economically Weaker Sections (EWS) reservation.

The EWS certificate issued by the Competent Authority in the prescribed format must be uploaded in the ONLINE application form and submitted at the time of admission.

The EWS reservation update Information is available in the public domain http://www.iitb.ac.in/newacadhome/phd.jsp under EWS Reservation Update.

10 PwD candidates will be given extra time, as per GOI rules on request by the candidate. Such requests need to be addressed to Head of the concerned academic units through email/hard copy well in advance.

11 Seats are reserved for Economically Weaker Sections (EWS)/Other Backward Class Non-Creamy Layer (OBC-NCL)/Scheduled Caste (SC)/Scheduled Tribe (ST) and Person with Benchmark Disability (PwD) Categories, as per Government of India rules.

12 You should check the Institute website for results/important announcements.

13 You should check emails sent to the email address provided in your application for all important communications and announcements.

14 Candidates called for written test/interview should bring with them (i) Photo ID Card, (ii) Printed copy of the application submitted online, (iii) Thesis/dissertation/report/publications (iv) copy of certificates and mark-sheets.

15 Candidates having degree from foreign universities should submit equivalence certificate from Association of Indian Universities (AIU), New Delhi for qualifying Exam and proof of having First class or 60% (55% for SC/ST) marks or equivalent in qualifying examination.

16 Read the Frequently Asked Questions (FAQ) given on Institute website http://www.iitb.ac.in/newacadhome/phd.jsp for more details.

17 Contact Details for
  - M.Tech./M.Tech. + Ph.D. (Dual Degree) - pgadm@iitb.ac.in
  - Ph.D. - phd_unit5@iitb.ac.in

18 Students must submit self-attested copies of his/her qualifying degree certificate & final transcripts on or before 30th September, 2019 (admitted in Autumn Semester)/January 30, 2020 (admitted in Spring Semester), failing which admission will stand cancelled.
II) Schedule of Ph.D. Admission - Application form throughout the year

* No admission for spring semester 2019-20 in CPS, C-USE, Educational Technology & IDC.

Results will be declared on IIT website: [http://www.iitb.ac.in/newacadhome/phd.jsp](http://www.iitb.ac.in/newacadhome/phd.jsp)

The dates given above are tentative. Any changes in the dates will be indicated on the website.
A) GENERAL

A.1) THE INSTITUTE

The Indian Institute of Technology Bombay (IIT Bombay) is one of the higher Institutes of Technology in the country set up with the objectives of making available facilities for higher education, research and training in various fields of Science and Technology. The Institute was established in 1958. It is located at Powai in a campus extending over 220 hectares amidst picturesque surroundings with Vihar and Powai lakes on either side.

The Institute on an average admits 1314 candidates for the Undergraduate programmes and 1569 candidates for different Postgraduate and Doctoral programmes every year. Students from Bangladesh, Egypt, Ethiopia, Fiji, Iran, Iraq, Pakistan, Jordan, Mauritius, Malaysia, Nepal, Palestine, Sri Lanka, Vietnam and Yemen are also undergoing training in various programmes. In addition to these academic programmes, the Continuing Education Programme (CEP) organizes short, intensive courses in specialized topics both for practicing engineers as well as for teachers from engineering colleges; and also conducts seminar and conferences on current scientific and technological developments. Further, teachers from various engineering colleges also join Institute for the postgraduate and doctoral programmes. under Quality Improvement Programme (QIP).

A.2) RESEARCH FACILITIES

All the Academic Units of the Institute have well equipped research laboratories and workshop facilities. In addition, there are a number of central facilities such as Central Workshop, Central Library and Computer Centre. The Central Library has more than 3 lakhs books, a large collection of back volumes of periodicals, standard specifications and other literature. It subscribes to over 1500
current journals in Science, Engineering, Humanities and Social Sciences. The Computer Centre provides high-end networked computing facilities.

The Institute has many research collaborations with leading universities in USA, Europe, Japan, and other East Asian countries. As part of these collaborations, the postgraduate students get opportunities to carry out joint research projects with faculty and students from them.

The location of IIT Bombay, in close proximity to several leading R&D Centers and major industrial establishments, offers excellent opportunities to interact with them and plan research programmes in collaboration with them. The Industrial Research and Consultancy Centre (IRCC) coordinates collaborative projects with industry and other research organizations such as BARC, TIFR and CSIR labs. The Institute is actively collaborating with several organizations of other countries on a bilateral basis.

A.3) STUDENTS AMENITIES
The Institute is fully residential and has 16 hostels for students. Each hostel is an independent entity with its own mess facilities, recreation areas, etc. However students may be permitted to have their own arrangements for accommodation outside campus. Some flatlets are available for married research scholars.

Extra-curricular activities are provided by the Students' Gymkhana. These activities include Sports, Cultural programmes and Social Service. Various clubs of the Gymkhana encourage individual talents of students in hobbies such as painting, modeling, music, photography, aeromodelling and fabrication of electronic devices. A swimming pool is an additional facility. A well-planned Student Activities Centre (SAC) routinely organizes several vibrant extra curricular events.

A.4) Ph.D. PROGRAMME
With extensive infrastructural facilities and a sound research base, the Institute offers Ph.D. programme in a wide range of areas in Engineering, Sciences and Humanities & Social Sciences. The broad objectives of the Ph.D. programme are to contribute to expanding the frontiers of knowledge and to provide research training.

The academic programme leading to the Ph.D. degree is broad-based and involves a course credit requirement and a research project leading to thesis submission. The Institute also encourages research in interdisciplinary areas through a system of joint supervision and interdepartmental group activities. The Institute undertakes sponsored research and development projects from industrial and other organizations in public as well as private sector.

Facilities for research work leading to the Ph.D. degree are available in the departments of Aerospace Engineering, Biosciences and Bioengineering, Chemical Engineering, Chemistry, Civil Engineering, Computer Science and Engineering, Earth Sciences, Electrical Engineering, Energy Science & Engineering, Humanities and Social Sciences, Mathematics, Mechanical Engineering, Metallurgical Engineering and Materials Science, Physics, Industrial Design Centre, Environmental Science and Engineering Department, Centre of Studies in Resources Engineering, Centre for Research in Nanotechnology & Science and Centre for Technology Alternatives for Rural Areas, Centre for Urban Science and Engineering, Interdisciplinary Groups in Climate Studies, Educational Technology, Industrial Engineering & Operations Research and Systems & Control Engineering and in Shailesh J. Mehta School of Management.

A.5) ELIGIBILITY CRITERION FOR PH.D. ADMISSION

A.5.1) General eligibility criterion for Admission in all academic units: Departments, Centres, Schools and Interdisciplinary Groups

ONE of the following in appropriate subject areas:

1) Master's Degree in Engineering/Technology or equivalent degree, with First class or 60% marks (55% marks for SC/ST) as described later in A.5.4.
2) One of the following:

(i) Bachelor's degree in Engineering/Technology with First class or 60% marks (55% marks for SC/ST/PwD) as described later in A.5.4.
(ii) Master's degree in Science or equivalent degree, with First class or 60% marks (55% marks for SC/ST/PwD) as described later in A.5.4.
(iii) Master's degree in Arts/Commerce or equivalent degree in allied subjects with a minimum of 55% marks (50% for SC/ST/PwD), only for admission to the Ph.D. programmes offered by the Industrial Design Centre and Department of Humanities & Social Sciences.

Candidates must also fulfill ONE of the following additional requirements:

i. Valid GATE/CEED/JEST (for Physics) score
ii. Junior Research Fellowship (JRF) of CSIR/UGC/NBHM/DBT/ICAR/ICMR/ICPR or Joint Entrance Screening Test (JEST) (applicable for Physics Department)
or DST INSPIRE Fellowship.
iii. Candidates having UGC-NET Lectureship (LS) are also eligible for Teaching Assistantship in addition to other academic qualifications in Humanities & Social Sciences Department.
iv. Minimum of 2 years of professional experience (acquired after obtaining the qualifying degree and completed before the starting of the semester in which admission is sought).

In addition to general eligibility criterion, the applicants must satisfy the eligibility criteria specified for the respective Departments/Centres / Schools / Interdisciplinary Groups. Further, for financial support the eligibility criteria for specific category has to be satisfied.

Candidates are informed that an ongoing degree may also be considered as a qualifying degree provided by the applicant graduates before the Ph.D. programme starts. It is the responsibility of the applicants to satisfy their eligibility on this account.

A.5.2) Requirements for Teaching Assistantship (TA/TAP), Research Assistantship (RA/RAP) and Project Staff (PS)

TA/TAP/RA/RAP category (as described later): Candidates with Master's Degree in Engineering/Technology or equivalent degree are eligible for admission under these categories without valid GATE score. Candidates without Master's Degree in Engineering / Technology or equivalent degree are required to have either a valid GATE score or JRF of UGC / CSIR / NBHM / DBT or DST INSPIRE fellowship.

PS category (as described later): In addition to meeting the eligibility criteria for admission, the candidates should have 6 months of service (before the starting of the semester in which admission is sought) in sponsored projects at the Institute. In case of students with B.Tech./M.Sc. or equivalent degree and without GATE score, the six month project experience may be counted as part of two-year professional experience.

A.5.3) Admission for IIT B.Tech. degree holders

Candidate having an B.Tech. Degree from IITs and having a CGPA/CPI score of 8.00 (on 0-10 scale) and above are exempted from requirement of GATE qualification. They may be admitted to M.Tech. Programme under TA/RA positions through written test and/or interview.

A.5.4) Eligibility Requirement for PG admission at IIT Bombay

The overall institutional requirement for admission to PhD/PG programme of the Institute is meeting ANY ONE of the following criteria:

For GN/EWS/OBC (NC) category
(1) a minimum of 60% marks in aggregate in the qualifying degree.

OR

(2) a First Class as specified by the University.
OR
(3) a minimum Cumulative Grade Point Average (CGPA)/ Cumulative Performance Index (CPI) of 6.0 on the scale of 0-10; or an equivalent to 6.0 on other corresponding proportional requirements when the scales are other than 0-10. in the qualifying degree.

For SC/ST/PwD category
(1) a minimum of 55% marks in aggregate in the qualifying degree.
OR
(2) a minimum Cumulative Grade Point Average (CGPA)/ Cumulative Performance Index (CPI) of 5.5 on the scale of 0-10; an equivalent to 5.6 on other corresponding proportional requirements when the scales are other than 0-10. in the qualifying degree.

A.6) APPLICATION CATEGORIES AND FINANCIAL SUPPORT
The Institute admits Ph.D. candidates under the following categories:

FULL-TIME RESEARCH SCHOLAR
i Teaching Assistantship (TA)
ii Teaching Assistantship through Project (TAP)
iii Govt./Semi Govt. Fellowship Award (FA: QIP, CSIR, UGC, DAE, DST, DBT, NBHM, etc.)
iv Sponsored Candidates (SW)
v Self-Financed, including those on Study Leave (SF)
vi Foreign Nationals with Indian Council for Cultural Relation Award (ICCR)
vii Self-Financed Foreign Nationals (FRN-SF)
viii Foreign Nationals with Teaching Assistantship (FRN-TA)

PART-TIME RESEARCH SCHOLAR
i Institute Staff of IIT Bombay (IS)
ii Project Staff of IIT Bombay (PS)
iii Research Assistantship (RA)
iv Research Assistantship through Project (RAP)
v External candidates sponsored by recognized R & D organizations (EX)
vi College Teacher: Candidates working in Colleges / Educational Institutes (CT)

A.6.1) Teaching Assistantship (TA)
Students under this category are entitled to financial support as per MHRD norms.
i. For students with M.Tech./M.E. or equivalent degree as the qualifying degree, the assistantship is payable for a maximum duration of 5 years or up to the thesis submission, whichever is earlier. At present, the monthly rate of assistantship is Rs. 25,000/- for the first 2 years and enhanced rate of Rs. 28,000/- for the remaining period.

ii. For students with B.Tech./B.E. or equivalent degree and students with M.Sc./M.A./M.Com. or equivalent as the qualifying degree and having valid GATE/ JEST (for Physics) score or having Junior Research fellowship (JRF) of UGC/CSIR/NBHM/DBT or DST INSPIRE fellowship, the assistantship is payable for a maximum duration of 5 years or up to the thesis submission, whichever is earlier. At present, the monthly rate of assistantship is Rs. 25,000/- for the first two years and enhanced rate of Rs.28,000/- for the remaining period.

iii. Students in SJMSOM with M.B.A. as the qualifying degree and with B.Tech./B.E. or equivalent degree, the assistantship is same as in (i) above. For other students the amount is as in (ii) above.

iv. To get Teaching Assistantship, the students concerned must assist in teaching or research, as assigned by the respective Academic Unit to the extent of 8 hours of work per week.

v. The continuation of the assistantship will be subject to satisfactory performance of the duties assigned by the Academic Units as well as satisfactory academic performance.
vi. Employees on the rolls (with or without pay) of any organization are not eligible for admission under this category.

As per MHRD directives, the employees of any organizations with or without pay are not eligible for admission under TA category. Such candidates may be considered under SW/SF category, if found suitable. Students getting assistantships from the Institute may join projects sponsored by external agencies and obtain corresponding fellowships in lieu of TA ship.

A.6.2) Teaching Assistantship Through Project (TAP)
The students under this category receive financial support from sponsored projects. Only some disciplines have TAP seats. The candidates do not have to indicate their preference for TAP separately. The rate of stipend may be same or higher than the TAship. The admission procedure and other requirements are same as applicable to TA.

A.6.3) Fellowship Award (FA)
These students are financially supported under various Govt. / Semi Govt. schemes (CSIR, UGC, DAE, DST, DBT, NBHM, etc.) and some other organizations. The admission procedure and other requirements are same as applicable to TA.

A.6.4) Sponsored Candidate (SW)
These students are sponsored by their employers for doing research work in the Institute. They are expected to be released for full-time course work and research at the Institute for a minimum period of three years. They will not receive any financial support from the Institute. Sponsorship letter (Appendix C.2) should be submitted at the time of written test and/or interview.

A.6.5) Self-Financed Indian Nationals, including those on Study Leave (SF)
This category refers to persons who are admitted through the usual admission procedure but are not eligible for financial support from the Institute. Such students are not entitled for hostel accommodation on campus. If admitted, these students have to complete their programme within the prescribed time without any financial support from the Institute.

This category also includes the students who are released from Governmental or educational institutions on study leave for a period not less than three years for doing research work at the Institute. Employer's Letter for Study Leave (Appendix C.3) should be produced at the time of joining, if selected.

A.6.6 Self-Financed Foreign Nationals (FRN-SF)
Foreign Nationals applying under Self-financed (FRN-SF) category should visit the following link for Foreign Students on the website of the IIT Bombay International Relations Office:
http://www.iitb.ac.in/academic/toadmission.jsp.

A.6.7) Foreign Nationals with Indian Council for Cultural Relations Award (ICCR)
These students are sponsored by their Governments and awarded scholarship by them. They should apply for admission through Indian Embassy in their country.

A.6.8) Institute Staff of IIT Bombay (IS)
This category is for the persons employed as Institute Staff at IIT Bombay.
   (i) The candidate should have been employed as Institute Staff for at least 2-years (before the starting of the semester in which admission is sought).
   (ii) The concerned academic unit will shortlist the eligible candidates. Admission will be on the basis of written test and interview as applicable to the concerned programme.
   (iii) If selected, the permanency or otherwise of the candidate will not come in the way of admission process.
   (iv) If an employee admitted under this category is not serving as Institute Staff while pursuing the degree, then he/she cannot continue under the IS category but may be considered under the SF category.
(v) The shortlisted candidates should produce a letter of recommendation from the Head of the Department at the time of interview.

A.6.9) Project Staff (PS)

This category refers to candidates employed at IIT Bombay and working on sponsored projects undertaken by the Institute and admitted to the Ph.D. programme, if the duration of the Project at the time of admission is 3 years or more.

In addition to meeting the eligibility criteria for admission, the candidates should have 6 months of service (before the starting of the semester in which admission is sought) in sponsored projects at the Institute. In case of students with B.Tech./M.Sc. or equivalent degree and without GATE score, the six month project experience may be counted as part of two-year professional work experience.

The shortlisted candidates should produce a letter of recommendation from the Principal Investigator of the sponsored project at the time of interview.

A.6.10) Research Assistantship (RA)

Depending upon the requirements, each Academic Unit may induct ONE Research Assistant every year. The candidates under this category are eligible for Research Assistantship based on the following norms:

i. For students with M.Tech./M.E. or equivalent degree as the qualifying degree, the assistantship is payable for a maximum duration of 5 years or up to the thesis submission, whichever is earlier. At present, the monthly rate of assistantship is Rs. 28,000/- for the first two years and enhanced rate of Rs. 31,500/- for the remaining period.

ii. For students with B.Tech./B.E. or equivalent degree and students with M.Sc. / M.A. / M.Com. or equivalent as the qualifying degree and having valid GATE/ JEST (for Physics) score or having Junior Research fellowship (JRF) of UGC / CSIR / NBHM / DBT or DST INSPIRE fellowship, the assistantship is payable for a maximum duration of 5 years or up to the thesis submission, whichever is earlier. At present, the monthly rate of assistantship is Rs.28,000/- for the first two years and enhanced rate of Rs. 31,500/- for the remaining period.

iii. Students in SJMSOM with M.B.A. as the qualifying degree and with B.Tech./B.E. or equivalent degree, the assistantship is same as in (i) above. For other students the amount is as in (ii) above.

iv. Ph.D. Research Assistants have to look after the laboratories and also assist in teaching or research or other work assigned by the respective Academic Unit. They are required to work for about 20 hours a week.

v. The continuation of the assistantship will be subject to satisfactory performance of the duties assigned by the Academic Units as well as satisfactory academic performance.

vi. Employees on the rolls (with or without pay) of any organization are not eligible for admission under this category.

A.6.11) Research Assistantship Through Project (RAP)

The candidates under this category will be considered for Assistantships supported under Sponsored Research Project being carried out at the Institute. The admission eligibility criteria are the same as for TA. Only some disciplines have RAP seats. The candidates do not have to indicate their preference for RAP separately.

A.6.12) External (EX)

The candidates employed in recognized R&D organizations and desirous of pursuing Ph.D. programme while in employment may apply for admission as external candidates. After fulfilling the coursework requirement at the Institute, these candidates will be allowed to register for Ph.D. with a Supervisor (internal) from the Institute and a Co-supervisor (external) from their parent organization where they will be doing the research work. The admissions are based on the following norms:

i. The competence of these candidates will be assessed along with the regular candidates.
ii. The candidate should submit at the time of application, a Sponsorship Certificate (Appendix C.4) from the organization in which he / she is employed giving an undertaking that the candidate would be released from the normal duties to fulfill the coursework requirement (and qualifier examination, if applicable). The certificate should also provide details of facilities relevant to the research programme and available to the candidate.

iii. The candidate is required to be at the Institute as a full-time student for the coursework (and qualifier examination, if applicable) of his/her Ph.D. Programme. The coursework requirement is likely to be a period of 1-2 semesters. Depending on the student's background and the programme requirements, an additional semester may be needed to complete the coursework/qualifier examination.

iv. To promote interaction between the internal supervisor and external co-supervisor, meeting between them should be arranged at least once in a year in the Institute or in the sponsoring organization.

v. The Ph.D. registration of an external candidate would be reviewed at the end of each year from the date of registration in terms of his progress in courses / seminars / approved research programme by a Research Progress Committee (RPC) nominated by the concerned Department Postgraduate Committee (DPGC).

vi. The option of external registration is for applicants who are working in well-equipped scientific institutions, laboratories, R&D establishments and industrial organizations engaged in research based activities. Persons working in colleges/universities are not eligible under this category (they may apply under CT).

vii. At the time of joining the programme, the students will have to produce a “Relieving certificate” from his / her employer that he / she has been fully relieved from normal duties during the semester(s) to complete the course work and other academic work at IIT Bombay.

A.6.13) College Teacher (CT)
The candidates employed as faculty members in Colleges and Universities and desirous of pursuing Ph.D. Programme while in employment and without availing study leave may apply for admission under this Category. The admissions are based on the following norms:

i. The competence of these candidates will be assessed along with the regular candidates.

ii. The candidate should submit at the time of application, a “NO OBJECTION CERTIFICATE (NOC)” (Appendix C.5) from the College/University in which he / she is employed giving an undertaking that the candidate would be relieved from the normal duties to fulfill the coursework requirements (and qualifier examination, if applicable).

iii. The candidate is required to fulfill the coursework requirement (and qualifier examination, if applicable) of his/her Ph.D. Programme which is likely to be a period of 1-2 semesters. Depending on the student's background and the programme requirements, an additional semester may be needed to complete the coursework/qualifier examination.

iv. After fulfilling the coursework requirements (and qualifier examination, if applicable), these candidates will be allowed to register for Ph.D. with a Supervisor (internal) from the Institute and a Co-supervisor (external) from their parent organization. Appointment of external co-supervisor is optional based on recommendations of the supervisor and respective DPGC.

v. Candidates admitted under this category will be treated on par with SF category as far as payment of fees and deposits are concerned.

vi. Place for research will be treated as IIT Bombay even though candidate may be carrying out part of the work at their Institute. These candidates are required to be available with the Supervisor (internal) for interaction during weekends, holidays and vacations.

A.7) ADMISSION PROCEDURE
Admission is offered on the basis of an interview held usually a month before the commencement of the semester for which admission is sought. The interview may be supplemented by a written test, if necessary. Merely satisfying the general eligibility criterion as well as criterion set for each admission
category is no guarantee for being called for test/interview. Depending on the number of applications received and considering the constraints of time and other resources for conducting Written Test and Interview, the Academic Units may put additional academic performance based shortlisting criterion.

Candidates called for the written Test/Interview under Teaching Assistantship (TA) category, only candidates belonging to SC/ST and PwD categories will be paid single second class return railway fare by the shortest route (as per rules) from their place of residence to the Institute. They have to produce evidence (Original/Photocopy of Railway Ticket) in support of their claim. A candidate called for more than one discipline, can submit only one claim.

A.8) PAYMENT OF FEES AND DEPOSITS
Various fees and deposits for the programme are given in Appendix C.1.

A.9) REGISTRATION FOR THE PH.D. DEGREE
After a candidate has been admitted to the Institute, he/she has to make an application on a prescribed form for registration for the Ph.D. degree. This application will be considered by the Departmental Postgraduate Committee (DPGC) which will make appropriate recommendations to the Senate regarding (a) the course work prescribed for the candidate and (b) the date of registration.

The period of validity of Ph.D. registration for all candidates is FIVE/SIX years from the date of confirmation of registration (Registration is confirmed as per rules, after successfully completion of course credit requirements).

A.10) CONFIRMATION OF REGISTRATION
All Ph.D. Admissions are provisional until the “Confirmation of Registration” is completed. This confirmation takes place after six months to a year after admission, and only if academic performance criterion set by the department is met. Some academic units (departments / interdisciplinary groups / centres / schools) prescribe a qualifier examination for the Ph.D. Programme. These must be completed successfully prior to confirmation of registration. Failure to meet satisfactory performance criterion may lead to termination of studentship.
Ref.: Rules & Regulations for Ph.D. Programme, http://www.iith.ac.in/academichome/rules.jsp

A.11) SUBMISSION OF THESIS AND AWARD OF DEGREE
Subject to fulfilling the course credit requirements and other conditions as may be laid down from time to time, the candidate may submit the Ph.D. thesis after two years from the date of registration (3 years for external candidates). The thesis is examined by two/three referees from outside the Institute. The Senate examines the reports of the referees and on acceptance of the thesis, appoints a Board of Examiners to conduct a viva-voce examination at which a candidate is required to defend the thesis. On the basis of the report of the Board of Examiners, the Senate decides the student's eligibility for award of the degree of Doctor of Philosophy.
B) INFORMATION ON DEPARTMENTS, CENTRES, SCHOOLS AND INTERDISCIPLINARY GROUPS

In addition to the eligibility requirements as given in A.5, the candidate should also fulfill the requirements for admission in the disciplines and specialisations of their choice.

B.1) AEROSPACE ENGINEERING (AE)

[Department of Aerospace Engineering]

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

(i) M.Tech./M.E. or equivalent degree in Aerospace Engineering OR in other branches of engineering relevant to the research areas in the department.

(ii) B.Tech./B.E. or equivalent degree in Aerospace Engineering OR in other branches of engineering relevant to the research areas in the department, OR

M.Sc. or equivalent degree in Mathematics OR Physics OR in other specializations relevant to the research areas in the department.

Candidates are advised to visit the department web page http://www.aero.iitb.ac.in and contact individual faculty member for available research topics and the corresponding background expected of the candidates. Shortlisted candidates will be called for written test and/or interview.

RESEARCH AREAS

II. Dynamics and Control: Flight mechanics, guidance, trajectory optimization, navigation, state and parameter estimation, tracking and control of launch vehicle, missiles, aircraft, manned and unmanned aerial vehicles, mini aerial vehicles (MAVs), satellites, multi-agent systems, nonlinear adaptive and robust flight control, integrated navigation systems, air-breathing and gas turbine engine control, swarm, path planning and formation flying of aerial vehicles, hardware-in-loop-simulation, co-operative missions for MAVs.

B.2) BIOSCIENCES AND BIOENGINEERING (BB)  
[Department of Biosciences and Bioengineering]

The Department of Biosciences and Bioengineering comprises of Biosciences (BS) and Biomedical Engineering (BME) as core academic groups. Eligibility criterion and research areas for the two groups are mentioned below. Under the item No.10(b) of Application Form, the candidate should enter the groups (BS, BME) they wish to join in the order of priority.

B.2.1. Biosciences (BS)

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech. or equivalent degree in Biotechnology.
ii. M.Sc. or equivalent degree in subjects related to Life Sciences / Physics / Chemistry OR B.Tech. in Biotechnology with one of the following:
   a) a valid GATE score (for TA/TAP/RA/RAP)
   b) a valid CSIR/UGC/DBT JRF or a valid ICMR JRF not linked to ICMR project (for FA)
   c) Experience as specified earlier in A.5 and A.6 (for CT, EX, IS, PS, SF, SW)

RESEARCH AREAS

(A) Biophysics and Computational Biology: Bioinformatics, Glycobiology, Computational Biology, Protein crystallography, NMR based structural Biology, Physics of Biological system and Computational Modeling of bio-molecules, Dynamics of cytoskeletal filaments and Chromatin remodelling, physical properties of the extracellular matrix, protein folding/mis-folding, aggregation and neuro-degeneration.

(B) Biochemistry: Enzyme kinetics and enzyme secretion, microbial metabolism and regulation, aromatic hydrocarbon metabolism and genetic engineering, enzyme inhibitor design, molecular mechanisms of DNA replication, repair and packaging in double-stranded DNA viruses, Molecular Enzymology.

(C) Microbial Biology: Fungi, Viral assemblies, Bacterial Pathogenesis, Host-Pathogen Interactions, molecular parasitology.

(D) Cell Biology: Cellular Biophysics, micro-tubule dynamics, bacterial cell division, Chromosomal and extra chromosomal segregation in fungi, Neurobiology.

(E) Immunology: Molecular immunology and cell signaling, Cellular Immunity, Tumor Immunology, Cancer biomarker.

(F) Genetics and Molecular Biology: Functional Genomics, Epigenetic Regulation, Fungal Molecular Genetics.

(G) Proteomics, System Biology and Biomarkers of infectious diseases.

B.2.2 Biomedical Engineering (BME)

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

   OR
   MBBS with MD/MS, BVSc with MVSc, BDS with MDS, BPTh with MPTh, BOTh with MOTh.
   OR
   M.Pharma.

OR

M.Sc. or equivalent degree in Biochemistry, Biophysics, Biotechnology, Ceramics, Chemistry, Electronics. Ergonomics, Material Science, Mathematics, Molecular Biology, Physics and Physiology.

OR

MBBS/BDS/BPT/BOT/BVSc (4-year degree) or equivalent degree in appropriate branch.

OR

B.Pharm. (with entrance examination)

Applicants with qualifying degrees listed in (ii) above and seeking admission under TA/TAP/RA/RAP should have valid scores of GATE (for Engineering and Science graduates) or GPAT (for Pharmacy graduates) or AIIMS / MCI / JIPMER / PGI-Chandigarh / AFMC-Pune postgraduate entrance examinations (for medical graduates). For admission under FA category, the candidate should have a valid CSIR/UGC/DBT JRF or a valid ICMR JRF (not linked to ICMR project).

RESEARCH AREAS

- **Biomaterials, Drug delivery and tissue engineering**: Nano-biotechnology, Design of scaffolds for tissue engineering, Controlled Release technologies, Neuroprosthetic devices including aids for the handicapped, Signal processing, Telemedicine and knowledge based systems. Microfabrication for immunotherapy.

- **Computational physiology**: Cardiac electrophysiology and muscle mechanics, Computational Neurophysiology.

- **Movement Neuroscience, Rehabilitation technology**

- **Medical Optics – Optical tomography, Blood flow measurements, Computational Imaging**

---

B.3) CHEMICAL ENGINEERING (CH)

[Department of Chemical Engineering]

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in Chemical Engineering OR in other branches of engineering with an academic background relevant with the research areas in the department.

ii. B.Tech./B.E. or equivalent degree in Chemical Engineering OR in other branches of engineering with an academic background relevant with the research areas in the department.

OR

M.Sc. or equivalent degree in disciplines consistent with the research areas of the department.

Candidates applying to the Department of Chemical Engineering, please visit the following link for information: [http://www.che.iitb.ac.in/online/education/phd/phd-admission-information](http://www.che.iitb.ac.in/online/education/phd/phd-admission-information).
**RESEARCH AREAS**

**Materials Engineering:** Polymer materials, Polymer Reaction Engineering, Polymer Processing, Polymer Physics, Polyurethane, Rubber, Polymer Rheology, Ceramics, Polymers, Biomaterials, Drug Delivery, Microscopy, Nano-composites, Statistical Thermodynamics, and Supercritical Fluids.

**Catalysis & Reaction Engineering:** Catalysis, Multiphase Reactions, Bio-reaction Engineering and Reactor Modelling, Process intensification & reactive distillation.

**Energy and Environment:** Climate change, Coal Gasification, Energy Integration, Green Engineering, Renewable Resources, Waste Management, Pollution Control, Air Pollution Prediction & Control and Vermiculture.

---

**B.4) CHEMISTRY (CH)**

[Department of Chemistry]

**ELIGIBILITY FOR ADMISSION**

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

M.Sc. or equivalent degree in Chemistry / Physics / Biochemistry / Biotechnology / Bioinformatics.

Candidates having CSIR/UGS (LS) (Lecturership) only are not eligible for admission to Ph.D. Programme in Chemistry.

Detail of Ph. D. topics available will be displayed in the department's webpage (www.chem.iitb.ac.in) from March 20 onward.

**RESEARCH AREAS**

- Biophysical Chemistry
- Coordination Chemistry
- Bio-inorganic Chemistry
- Organometallic Chemistry
- Bio-organic Chemistry
- Chemistry of Natural Products
- Synthetic Organic Chemistry
- Photochemistry and Spectroscopy
- Polymer Chemistry
- Thermodynamics
- Electrochemistry
- Solid state Chemistry and Physics
- Catalysis
- Theoretical Chemistry
B.5) CIVIL ENGINEERING (CE)
[Department of Civil Engineering]

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in Civil Engineering OR in disciplines consistent with the research areas of the department

ii. B.Tech./B.E. or equivalent degree in Civil Engineering OR in disciplines consistent with the research areas of the department

OR

M.Sc. or equivalent degree in disciplines consistent with the research areas of the department.

RESEARCH AREAS

1. Transportation Systems Engineering

2. Geotechnical Engineering

Geotechnical earthquake engineering; Geoenvironmental engineering; Energy geotechnics; Computational geomechanics; Foundation engineering; Seismic hazard study; Liquefaction; Constitutive modelling of soil; Soil-structure interaction; Offshore geotechnical engineering; Pipeline geotechnics; Soil Characterization, Foundation for offshore structures, Bio-geo interface study; Earth dam problems; Rock Mechanics and tunnelling; Soil dynamics; Soil stabilization; Expansive soils; Earth retention structures; Slope stabilization; Ground improvement; Reinforced soil structures and geosynthetics; Physical modelling in geotechnics; Centrifuge modelling of geotechnical problems; Optimization techniques and environmental geotechnics; Landslides; GIS applications for geotechnical problems; Earthquake resistant design of geotechnical structures; Reliability analysis; Dynamic soil characterization; Landfills and waste containment engineering; Sea walls.

3. Water Resources Engineering

4. Structural Engineering

Computational Mechanics; Finite element techniques; Composite materials and mechanics; Reinforced and prestressed concrete structures; Steel structures; Strength, stability and dynamics of thin membranes; Plates and shells; Structural optimization; Structural resilience, Structural response to blast, impact and shock loading; Pressure vessels; Reliability analysis; Seismic vulnerability and fragility assessment of structures; Bridge engineering; Machine learning; Probabilistic design methods; Curved grid; Cable networks; Plastic analysis techniques; Structural dynamics; Earthquake engineering; Earthquake disaster management; Vibration control of structures; Wind effects on structures; Inverse problems and artificial intelligence applications; Offshore structures; Shell foundation; Structural health monitoring;

5. Ocean Engineering

(a) Physical modelling - wave-structure interactions, floating body dynamics, offshore and maritime infrastructures design, nearshore dynamics, nonlinear waves and sediment transport;

(b) Numerical modelling - coastal processes, tidal hydrodynamics, pollutant dispersion in coastal waters, wave-current interactions, tsunami, storms, surges and extreme events, sea level rise, climate change impacts on met-ocean parameters, oil spill dispersions, coastal erosion, shoreline changes;

(c) Soft computing techniques - Application of statistical, stochastic and neural networks analysis on ocean parameters;

6. Remote Sensing

Development of methods and algorithms for digital analysis of Remotely Sensed Data (RSD); Remote Sensing, GIS and DTM in Hydrological Modelling; Decision Support Systems in Watershed Development; Remote sensing for Glacier Studies, Remote sensing data assimilation, Microwave remote sensing; Uncertainty modelling; Digital image processing; Fuzzy logic

7. Construction Technology and Management

Building materials, Concrete technology; Construction management; Infrastructure project management.

B.6) CLIMATE STUDIES (CM)
[Interdisciplinary Group in Climate Studies]

The interdisciplinary programme (IDP) in Climate Studies was initiated at the Indian Institute of Technology Bombay, in January, 2012, at the doctoral level. The mission of the IDP in Climate Studies is to foster a fundamental understanding and problem centered analysis of climate change science and solutions, from local to global scales. The IDP in Climate Studies has over 24 faculty participants drawn from 9 departments, across IIT Bombay, with expertise in climate science, vulnerability assessment and adaptation and mitigation and policy. The doctoral curriculum in the IDP in Climate Studies includes an introductory course and advanced courses in two broad tracks of climate science and climate policy, on a broad range of theoretical and practical topics.

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criteria, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in Aerospace Engineering, Atmospheric Science, Chemical Engineering, Civil/Construction Engineering, Computer Science Engineering/Information Technology, Electrical/Instrumentation Engineering, Energy

OR

M.Des./M.Arch./M.Planning or equivalent degree.

OR

M.Phil. (2-year) or equivalent degree in Social Sciences (Economics, Geography, Sociology, Planning etc.)

OR

M.Mgt./MBA or equivalent degree.

ii. M.Sc/MA or equivalent degree in Atmospheric Science, Chemistry, Earth Science, Energy Science, Environmental Science, Geophysics, Physics, Social sciences (Economics, Geography, Sociology, Planning etc.) or any other related discipline with valid GATE score or CSIR/UGC JRF or DST INSPIRE Fellowship or Minimum of 2 years of professional experience (acquired after obtaining the qualifying degree and completed before the starting of the semester in which admission is sought).

iii. B.E./B.Tech. or equivalent degree in Aerospace Engineering, Atmospheric Science, Chemical Engineering, Civil/Construction Engineering, Computer Science Engineering/Information Technology, Electrical/Instrumentation Engineering, Energy Science & Engineering, Environmental Science/Engineering/Management, Mechanical Engineering, Resource Engineering, Geoinformatics, Agricultural Engineering, Materials Engineering, Mining Engineering, or any other related Engineering discipline, with valid GATE score or Minimum of 2 years of professional experience (acquired after obtaining the qualifying degree and completed before the starting of the semester in which admission is sought).

WRITTEN TEST
Shortlisted candidates will be called for a written test and interview. The syllabus for the written test and sample question papers can be found on the website of the IDP at www.iitb.ac.in/climate.

RESEARCH AREAS

i. Climate Science: Detection, attribution and prediction of climate extremes, factors affecting the Indian monsoon, aerosol radiative processes, LES of cloud processes, causality analysis and data assimilation, impact on hydrology and water resources, climate change impact on ocean processes, ocean mixing dynamics.

ii. Vulnerability Assessment and Adaptation: Climate change impacts on cities, drivers and costs of adaptation; vulnerability analysis at national, sub-national and community levels; social & economic implications of climate change.

B.7) COMPUTER SCIENCE AND ENGINEERING (CS)
[Department of Computer Science and Engineering]

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in Engineering/Technology

ii. B.Tech./B.E. or equivalent degree in Engineering/Technology

OR

M.Sc. or equivalent degree in Science or MCA
Such candidates have to fulfill one of the following additional requirements:

- Valid GATE score
- CSIR / UGC / NBHM / DBT award
- Minimum of 2 years of professional work experience

WRITTEN TEST

Shortlisted candidates will be called for written test and interview. The syllabus for written test can be found on the website of the department at [www.cse.iitb.ac.in > Admissions > Ph.D.](http://www.cse.iitb.ac.in > Admissions > Ph.D.)

WAIVER FOR WRITTEN TEST

Eligible candidates meeting one of the following criteria may apply for a waiver of the written test:

- B.Tech. from the IITs who have graduated with a degree in Computer Science and Engineering/ Information Technology within the last five years and with a CPI/CGPA of 8/10 and above.
- Masters from the IITs/IISc who have graduated with a degree in Computer Science and Engineering/ Information Technology within the last five years and with a CPI/CGPA of 9/10 (7.2/8) and above.
- Bachelors/Masters who have passed the GATE exam in the discipline of Computer Science within the last five years and with a GATE score of 875/1000 and above.

Candidates seeking a waiver should email to [pgadm@cse.iitb.ac.in](mailto:pgadm@cse.iitb.ac.in) expressing their interest in the waiver before the last date for submission of completed application forms. Further, their application material must contain documents providing proof of the criteria mentioned above. Candidates for whom the waiver has been approved will be notified by email. The information will also be put up on [http://www.cse.iitb.ac.in -> Admissions -> PhD](http://www.cse.iitb.ac.in - > Admissions - > PhD) before the interview.

INDUSTRY SPONSORED FELLOWSHIPS

Industry sponsored fellowships covering tuition fees, generous contingencies, and providing monthly stipends of approximately Rs.25,000/- per month are available to meritorious Ph.D. Students.

RESEARCH AREAS

i. Theoretical Computer Science: Algorithms, Combinatorial Optimization, Combinatorics, Complexity Theory, Cryptography and Graph Theory.

ii. Natural Language Processing: Natural language understanding; Machine translation, Semantics Extraction; Document understanding; Cross lingual information Retrieval; Intelligent interfaces.

iii. Visual Computing: Computer graphics, Geometry processing, Image and signal processing, Computer vision and medical image computingRendering (photorealistic, non-photorealistic, real-time, immersive); animation (character, physics-based); sketch-based systems; augmented and virtual reality; camera and imaging systems. Image and geometry reconstruction; restoration; compressed sensing; compression; pattern recognition; localization; segmentation; tracking; registration; quantization; shape analysis; group analysis; retrieval; affective computing. Machine learning methods; deep learning; matrix analysis; statistical methods.

iv. Computer Security and Applied Cryptography: Information flow-based security modeling, language and OS security, web and browser security, security analytics, secure multi-party communication, verification of cryptographic protocols, side channel attacks and hardware security, computation on encrypted data.

vi. Database and Information Systems: Query Optimization, with a focus on parallel and distributed databases (aka Big Data systems), Holistic optimization of database applications, data generation for testing and grading SQL queries, Real time databases, Database support for Embedded and IoT systems, Spatial databases.

vii. Machine Learning and Information Retrieval: Data integration models and algorithms, Graphical models, Information extraction and retrieval, Forecasting and smart e-business, Text and Web data mining. Integrated mining with relational DBMS, Temporal mining, Integrating mining with OLAP

ix. Formal Methods: Formal specification, design and verification of hardware and software systems including distributed systems; Logic, automata theory and their applications in reasoning about systems; Automated theorem proving; Model checking; Reachability analysis of large and infinite state spaces: exact and approximate techniques.

x. Programming languages and Compilers: Theory of code optimization; Optimizing and parallelizing compilers; Analysis and implementation of functional and logic programming languages; Theory of programming languages.

Refer to the department web page (www.cse.iitb.ac.in) for more information about various RESEARCH AREAS. Candidates are also encouraged to visit individual faculty member's home page to learn about his/her research interest.

---

**B.8) DESIGN (ID)**

[Industrial Design Centre (IDC)]

IDC School of Design currently offers PhD programmes in the following domains-

1. Industrial Design
2. Communication Design
3. Interaction Design
4. Mobility and Vehicle Design
5. Human Factors and Ergonomics
6. Animation and Film

Besides the core domains as above, the PhD programme fosters an open interdisciplinary approach involving the disciplines such as engineering, social sciences, media and education.

Students are admitted for PhD programme at IDC once a year, in Autumn Semester.

**ELIGIBILITY FOR ADMISSION**

Qualifying degree and eligibility:
i. M.Des. / M.Arch. / M.Tech. / M.Phil. (2-year degree) / MFA / Postgraduate Diploma in Design of NID, Ahmedabad and equivalent degree with First Class or 60% marks (55% marks of SC/ST) as specified in the General Eligibility Criterion.

ii. B.Des. / B.Arch. / BFA / MA / M.Sc. / Undergraduate Diploma in Design of NID, Ahmedabad or equivalent degree with First Class or 60% marks (55% marks of SC/ST) as specified in the General Eligibility Criterion and with exceptionally outstanding design related work.

OR

MA or equivalent degree with 55% marks (50% marks of SC/ST) and with exceptionally outstanding design related work.

Such candidates should have valid CEED score. Candidates with a minimum three years of relevant professional experience without CEED score can also be considered, but will not be eligible for TA/TAP/RA/RAP.

**RESEARCH AREAS**

i). Design theory
ii). Design tools
iii). Design management
iv). Typography, script, calligraphy, lettering, type design
v). Interaction design
vi). Visual language & Storytelling
vii). Cinema
viii). Information design
ix). Sustainability
x). Human Computer Interaction
xi). Product semantics
xii). Biomimetics
xiii). Cognitive & Physical ergonomics
xiv). Human Factors and Socio-technical systems
xv). Systems thinking and design
xvi). Design for development
xvii). Game Designation

Candidates are advised to refer to the IDC School of Design web page for updates to these areas.

Candidates are encouraged to visit/discuss their research interests with individual faculty members of IDC before applying to gain a better understanding of current research focus.

For more details: [http://www.idc.iitb.ac.in/academics/phd.html](http://www.idc.iitb.ac.in/academics/phd.html)

---

**B.9) EARTH SCIENCES (ES)**

[Department of Earth Sciences]

**ELIGIBILITY FOR ADMISSION**

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.Phil. (2-year degree) or equivalent degree in Geology, Geophysics or in any other related Geosciences field.

ii. M.Sc. or equivalent degree in Geology, Geophysics, or in any other related Geosciences field.

OR

M.Sc. or equivalent degree in Physics, Chemistry, Mathematics, Oceanography, Life Sciences, Marine Sciences, Atmospheric Sciences or equivalent and having Geology / Physics /Mathematics/Chemistry at the Bachelors' level as principal subjects.

**RESEARCH AREAS**
The Interdisciplinary Programme in Educational Technology (IDP-ET) at IIT Bombay is actively involved in research and education in the area of technologies to improve the teaching-learning process. IDP-ET focuses on designing learning environments leveraging effective pedagogy and innovative technology scaffolds for supporting individual and collaborative learning in formal and informal contexts. IDP-ET is composed of core faculty members with additional associate members from various disciplines across IIT Bombay covering engineering, sciences, humanities and social sciences, design, and management.

**ELIGIBILITY FOR ADMISSION**

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

(i) M.Tech./M.E. or equivalent degree in any branch of Engineering OR M.Des. OR M.Phil. (2-year degree) in Social Sciences

(ii) M.A./M.Sc./M.Phil. (1 year) OR M.Ed. (with technology adoption and assessment studies)

For applicants with degrees in (ii) above, one of the following will be required in addition:

- a valid GATE score (eligible for Institute TA/ RA) OR
. a valid CSIR/UGC JRF (eligible for Institute TA/ RA) OR
. a valid UGC/CSIR Lectureship (eligible only for project positions) OR
. Two or more years of research experience in fields related to educational technology (eligible only for project positions)

For other admission-related details, please visit the Admissions page of the IDP in Educational Technology: [http://www.et.iitb.ac.in](http://www.et.iitb.ac.in) [http://www.et.iitb.ac.in/Admissions.html](http://www.et.iitb.ac.in/Admissions.html)

A ONE page (~500 words) document containing the Statement of Purpose (SoP) must accompany the application. The Statement of Purpose should contain (a) your interests and motivation for applying to ET (max. 50 words), (b) relevance of your recent and current activities (max. 200 words), (c) details about your academic interests including (but not limited to) your areas of interest, a problem that interests you, and what you plan on doing after completing your Ph.D. (max. 250 words)

RESEARCH AREAS

The thrust areas of research of the IDP in Educational Technology are:

i. Technology-enhanced learning of thinking skills such as design thinking, divergent-convergent thinking, estimation skills, etc.
ii. Frameworks for teacher-use of educational technology tools and strategies
iii. Development of AI & ICT based tools for above teaching-learning goals
iv. Educational data analytics using technologies such as GSR, EEG and eye tracking to understand teaching-learning processes

Please visit [http://www.et.iitb.ac.in](http://www.et.iitb.ac.in) for details regarding the research group and recent activities.

B.11) ELECTRICAL ENGINEERING (EE)  
[Department of Electrical Engineering]

AREAS OF SPECIALIZATION

1. Communication Engineering EE1  
2. Control and Computing EE2  
3. Power Electronics and Power Systems EE3  
4. Microelectronics EE4  
5. Electronic Systems EE5  
6. Integrated Circuits & Systems EE 6  
7. Solid State Devices EE 7

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

OR

M.Sc. or equivalent degree in Mathematics, Physics, Electronics / Electronic Sciences.

RESEARCH AREAS

Communication Engineering (EE1)  
Communication Systems  
•Communication Networks and Internet
• Computational Electromagnetics
• Image Processing and Computer Vision
• Microwaves, RF and Antennas
• Multimedia Systems
• Optical Communication and Photonics
• Signal Processing
• Speech Processing
• Wireless and Mobile Communication
• Information Theory and Coding
• Magnetic Resonance Imaging

Control and Computing (EE2)
• Linear Systems Theory
• Optimal Control and Optimization
• Modeling and Identification of Dynamical Systems
• Control of Distributed Parameter Systems
• Nonlinear Systems
• Modern Filter and Network Theory
• Behavioral Systems Theory
• Computational Methods in Electrical Engineering
• Software and System Reliability
• Cryptography and Security
• GPU-based Computing

Power Electronics and Power Systems (EE3)
FACTS, HVDC and Power Quality
• Distributed Generation
• Power System Restructuring
• Wide Area Measurements and System Protection
• EMI / EMC
• Coupled Field Computations
• Electrical Machines: Modeling, Analysis, Design and Control
• Special Machines
• Power Electronic Converters, Electric Drives
• Power Electronics for Nonconventional Energy Sources
• Reliability in Power Systems and Power Electronic Systems
• Smart Grids for Energy Harvesting

Electronic Systems (EE5)
Electronic Instrumentation
Signal Processing Applications
Speech and Audio Processing
Biomedical Electronics
Embedded System Design

Integrated Circuits & Systems (EE6)
Digital System Design
Analog/Mixed-signal/RF Integrated Circuits and Systems
Sensing Device Design and Fabrication
Miniature Sensor Systems
Energy Harvesting and Power Management
Data Converters, Phase Locked Loops
High-Speed Serial Links/Interfaces

Solid State Devices (EE7)
Non-volatile memory technologies (Flash, RRAM, FERAM, MRAM, etc.)
Energy is a critical input required for development. Fossil fuel reserves in the country are limited and there is a need to develop viable cost effective alternatives. Renewable and Nuclear Energy can provide possible long term solutions for the energy problems. There are problems in the large scale development and deployment of these alternatives that need to be addressed. In the short run India has to aggressively pursue energy efficiency and Demand Side Management to improve the efficiency of supply and utilization devices and systems. The development of new energy technologies provides a technological challenges as well as significant business opportunity. In order to help meet these challenges, the Department of Energy Science and Engineering (DESE) has been established with a mission to develop sustainable energy systems and solutions for the future. There is a requirement for high quality trained manpower in the energy sector. This also provides scope for engineering innovators/entrepreneurs. The DESE programme has two laboratories (Solar Energy and Energy Systems Laboratory) and a computational facility. In addition to this, DESE students are actively involved in the research and development activities of the Thermal Hydraulics facility, Gasification Laboratory, Heat Pump Laboratory (Mechanical Engineering), Power Electronics and Power Systems Laboratory (Electrical Engineering). DESE faculty have been organizing several Continuing Education Programme on a continuous basis on Renewable Energy, Energy Management, Process Integration, Solar Passive Architecture and have initiated a series of programmes for the Nuclear Power Corporation. DESE has established linkages with industries like Thermax, Forbes Marshall, BSES, Mahindra & Mahindra, BHEL and organization like Atomic Energy Regulatory Board, Ministry of New and Renewable Energy, International Energy Initiative and The Energy and Resource Institute which have sponsored M.Tech/Ph.D Projects. This has ensured the relevance of the DESE research output.

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in Aeronautical/Aerospace Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Energy Science & Engineering, Mechanical Engineering, Metallurgical Engineering or equivalent disciplines relevant to energy.

ii. B.Tech./B.E. or equivalent degree in Aeronautical/Aerospace Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Energy Science & Engineering, Mechanical Engineering, Metallurgical Engineering or equivalent disciplines relevant to energy.

OR

M.Sc. or equivalent degree in Chemistry, Physics, Mathematics or equivalent disciplines relevant to energy.

RESEARCH AREAS

---

**B.13) ENVIRONMENTAL SCIENCE AND ENGINEERING (EV)**

[Environmental Science and Engineering Department CESE]

In view of the interdisciplinary nature of the Environmental Science and Engineering subject, students from diverse areas of sciences, engineering and medical sciences are permitted to apply for Ph.D. However, students who do not have adequate background knowledge will have to take additional courses to enable them to successfully pursue research in Environmental Science and Engineering. For further details, visit [www.cese.iitb.ac.in](http://www.cese.iitb.ac.in)

**ELIGIBILITY FOR ADMISSION**

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

OR

M.Sc. or equivalent degree in Atmospheric Science, Biochemistry, Biotechnology, Chemistry, Earth Sciences, Environmental Toxicology, Environmental Science, Meteorology, Microbiology, Physics, Public Health & Statistics. Mathematics at 10+2 level is a mandatory requirement.

**RESEARCH AREAS**

The major focus areas of research at CESE are: Water Supply; Water & Wastewater Treatment, Tertiary treatment options, Urban and Industrial Solid Waste Management, Environmental Management; and Environmental Systems Modelling & Optimization, GIS for Environment, Industrial Effluent and Sludge Management Nanotechnology, Air pollution monitoring of indoor and outdoor environments, Aerosol and air quality, Health impact of air pollutants, Carbon dioxide sequestration methods, Detection of pathogenic microbes in drinking water, Evaluation of disinfection processes and by-products, Detection of trace and emerging contaminants in treated water and wastewater, Chemical and biological processes for the removal of trace and emerging contaminants from water
List of current research topics:

- Advanced oxidation processes for the removal of persistent organic and inorganic compounds from industrial wastewaters
- Reductive remediation of organic pollutants such as chlorinated pesticides, textile dyes using zero-valent metals and bimetallic systems
- (N & P) removal from wastewater using a combination of physico-chemical and biological process,
- Development of technologies for arsenic removal from water
- Treatment of leachate (generated from municipal solid waste landfill) using physico-chemical processes
- Application of natural coagulants for water and wastewater treatment
- Treatment of textile wastewater by biological and physicochemical processes
- Eco-centric and low-cost wastewater treatment systems
- Fate and transport of pollutants in aquatic and subsurface systems
- Biotransformation and biodegradation of oily sludge and toxicity evaluation
- Biodegradation of endocrine disrupting chemicals such as lower and higher phthalate esters and chlorinated pesticides,
- Bacterial cellulose: An alternative greener approach for the production of cellulose
- Application of biochemical processes (enzyme catalyzed processes) for cleaner production technologies
- Hazardous waste minimization and pollution prevention
- Biomonitoring and microbial bioassays for toxicity testing
- Detection and monitoring of bacteria and viruses in potable water
- Mechanical biological treatment of municipal solid waste (MSW)
- Energy recovery from solid recovered fuel (derived from MSW) and sludge generated from sewage treatment plants and industries
- Hazardous, municipal & biomedical waste management
- Air pollution dispersion modelling
- Air quality monitoring and management,
- Indoor and integrated air pollution exposure assessment
- Aerosol and air quality
- Environmental health assessment
- Environmental noise assessment
- Health impacts of air pollutants
- Hot gas clean-up (thermal gasification)
- Satellite remote sensing for air quality
- Nano-powder synthesis, Nanotechnology for the treatment of wastewater and disinfection processes
- Environmental statistics and design of experiments
- Environmental Impact assessment of construction activities and industrial activities
- Eco-industrial networking
- Environmental policy and preventive environmental management
- Environmental and Water Resources Systems: development of optimization models for surface water quality management, irrigation water management, floodplain planning and management, landfill leachate contamination risk assessment, optimal design of water & wastewater conveyance systems, design & evaluation of water quality monitoring network
- Uncertainty Modeling and Decision Science for Environmental Systems: probabilistic, fuzzy and interval approaches; multi-attribute decision making Hydro-climatic Extremes and Flood Management: multivariate flood and drought frequency analyses
- Non-stationary modeling of hydro-climatic extremes, mapping vulnerability to natural and human-induced hazards using GIS, flood risk mapping, near-real-time flood forecasting,
Geoinformatics & Natural Resources Engineering is an interdisciplinary area encompassing diverse issues in exploration and management of natural resources such as land, water, mineral, forest, soil and ocean resources; socioeconomic aspects of sustainable development with respect to environmental impact of natural resources exploitation; renewable energy resources management; global warming and climate change. Contemporary techniques of scientific assessment using satellite remote sensing, GIS and GPS are evolved and used in the study of natural resources. Researchers in this area come from diverse backgrounds of science and engineering and work may be of applied or theoretical nature as in the fields listed below.

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in Agricultural Engineering, Civil Engineering, Environmental Science & Engineering, Mining Engineering, Electrical Engineering, Electronics/Telecommunication Engineering, Computer Science & Engineering, Information Technology, Remote Sensing, Geoinformatics, Geomatics, Architecture and Town Planning. Applicants who carried out M.Tech./M.E. after M.Sc. Must have studied mathematics at 10+2 level, which is a mandatory requirement.

OR

M.Sc. or equivalent degree in Earth Sciences, Environmental Science, Geology, Geophysics, Marine Sciences, Agriculture, Physics, Mathematics, Computer Science, Information Technology (Mathematics at 10+2 level is a mandatory requirement for all applicants with M.Sc. degree).

WRITTEN TEST

A pre-interview written test will be conducted for screening. The written test will consist of questions related to the selected PhD topic. Shortlisted candidates after the written test will be interviewed.

The interested applicants are advised to visit CSRE webpage www.csre.iitb.ac.in/PHDtopics.html, for a detailed and updated list of topics/RESEARCH AREAS.

RESEARCH AREAS

a. Application Areas

i. Water Resources
ii. Terrain Evaluation, Landuse Planning and Monitoring
iii. Agro-informatics
iv. Precision Agriculture
v. Environmental sensors, UAVs and Internet of Things for Agriculture
vi. Mineral Systems studies and Mineral Exploration
vii. Natural Hazards of Droughts, Desertification, Landslide, Avalanche, Earthquake, Tsunami
viii. Marine Resources and Ecology
ix. Snow, Glaciers and Atmosphere
x. Applications of Microwave Remote Sensing
xi. Plant Phenomics

b. Theoretical Areas

i. Digital Image Processing and Alaysis
ii. Digital Photogrammetry and Cartography
iii. Geographic Information Science, Geospatial Data Mining, Big Data, High Performance Computing, Internet of Things
iv. Synthetic Aperture Radar Information Analysis and Polarimetry
v. Global Positioning Systems

Faculty members of CSRE pursue research within the above broad areas but for admission to the Ph.D. programme purposes, topics only on a subset from the above will be offered for each round of admissions. The list of actual topics offered by the faculty members may be found on the CSRE website at [https://www.csre.iitb.ac.in/phdTopics.php](https://www.csre.iitb.ac.in/phdTopics.php). Interested applicants must refer to this link while applying for the Ph.D. programme offered by CSRE. A statement of purpose must be enclosed along with the application in which the title of topic should be mentioned with detailed justification how the student's academic background is suitable to pursue research in that area. Applicants who have M.Sc. Degree must clearly mention in the application the subjects they studied at 10+2 level (Mathematics at 10+2 level is a mandatory requirement for applicants with M.Sc. Degree).

B.15) HUMANITIES AND SOCIAL SCIENCES (HSS)
[Department of Humanities and Social Sciences]

ELIGIBILITY FOR ADMISSION

i. M.Phil. (awarded by IIT Bombay or equivalent 2-year degree) in any of the disciplines pertaining to the research areas in the Department, with First Class or 60% marks (55% marks for SC/ST) as specified in the General Eligibility Criterion.

ii. M.A. or equivalent degree in Humanities & Social Sciences subjects, with 55% marks (50% for SC/ST).

OR

Master's degree in Commerce with 55% marks (50% for SC/ST).

OR

M.Sc. or equivalent degree in Science, with First Class or 60% marks (55% marks for SC/ST) as specified in the General Eligibility Criterion.

OR

B.Tech./B.E. or equivalent degree in Engineering/Technology, with First Class or 60% marks (55% marks for SC/ST) as specified in the General Eligibility Criterion.

Candidates with degrees in Science, Commerce, Design, Architecture, Management and Engineering/Technology or candidates with two years of PGDM from recognised Govt. Institution will also be considered for research areas consistent with their academic background.

Candidates having UGC-NET Lectureship (LS) are also eligible for Teaching Assistantship in addition to other academic qualifications.

RESEARCH AREAS

**Economics:** Open-economy Macroeconomics; Environmental Economics-Socio-Economic Impacts of Climate Change; Energy Economics; Green Accounting; Development Policy; Natural resource and environmental economics; Water resource Economics; Climate change; Environmental Policy; Strategic Trade Theory and Policy; International Finance; Indian Economy; Analysis of Economic Policies; Productivity-Measurement-Comparisons and Determinants; Development Economics; Industrial Economics; International Business; Industry-Environment Linkages; Financial Economics; Monetary Economics and Macroeconomics; Industrial Economics; Corporate Investment; Health Economics; Applied Econometrics; Corporate governance; Labour economics; Microeconomics-Game Theory; Behavioural Economics; Experimental Economics; Agricultural Economics; Nonlinear time series analysis.

**English:** Narratology; Intertextuality; Victorian Novel; Indian Writing in English; Films and Disnarration; Women's Studies; Autobiography Studies; "Crisis" in English Studies; African American Writing; The Partition of 1947; the 'Turbulent40s' in Bengal; South Asian Fiction-in English; and in Translation; Postcolonial Theory and Literature; Feminist Theory and Women's Writing; Cultural
Studies; Feminist Theory; Literary Theory; Film Studies; Regional Literatures; and Cultures in India; Adaptation Studies; Shakespeare and Renaissance Drama; European Literature; 19th Century Bengali Literature; Literature and Other Arts; Translation Studies; World Literature; Historical Musicology & Ethnomusicology; Performance Studies, Theatre Historiography.

**Philosophy:** Metaphysics; Philosophy of Science; Philosophical Logic; Philosophy of Language; Professional Ethics; Philosophy of Wittgenstein; Kripke, Quine, Moore, Sartre, Hare, Bhartrahari; Philosophy of Mind; Philosophy of Education; Environmental Ethics; Indian Philosophy and Comparative Philosophy; Buddhist Philosophy; Sankhya Philosophy and Vedanta Philosophy; Philosophy of Artificial Intelligence; Philosophy of Mind; Cognitive Science; Analytic Philosophy; Twentieth Century European Philosophy; Moral, Social and Political Philosophy; Social Epistemology; Moral theory; Alfred Korzybski - 'General Semantics' and related areas; Wittgenstein, Philosophy of Language, Culture and Value and Ethics, Classical American Pragmatism, Feminist Philosophy, Twentieth Century Continental Philosophy. 20th Century Continental Philosophy - Heidegger, Foucault, Husserl, Gadamer, Phenomenology and Hermeneutics, Epistemology - Implications of the Historicity of Knowledge for its Universal Validity; Metaphysics - Implications of an Ontology of Events for Political Philosophy History of Western Philosophy.

**Psychology:** Psychological Perspectives and Theory; Organizational Behaviour; Personality Studies; Qualified MBTI user; Organizational Culture and Values; Role of Psychology in Development; Health and Contraceptive Use; Developmental Neuropsychology; Education and Child Development; Eyewitness Testimony; Cognitive Ergonomics; EEG / Event Related Potential; Working Memory and Prospective Memory and Developmental Dyslexia; Health-Neurocognitive Psychology; Subjective Well-Being; Ergonomics; Visual Perception; Memory; Attention; Cognitive / Perceptual Load; Response Inhibition; ODD; Decision-Making; Delay Aversion; Perception; Cognition and Emotion; Value-Learning; Reward and Punishment Processing; Consciousness-Unconsciousness; Visual Awareness; Dyslexia; Cognitive Neuroscience; Task Switching; Meditation; Child Development; Cognitive Disorders; ADHD; Autism; Depression; Error Monitoring; Time Perception; Face Processing

**Sociology:** Urban Studies; Development Studies; Rural/Agrarian Sociology; Law and Governance; Legal Pluralism; Vulnerability and Adaptation to Climate Change; Gender and Development; Disaster Studies; Ethnicity and Multiculturalism; Sociological Theory; Anthropology of corruption; Constitutional Law; Sociology of Higher Education; Sociology of Religion and Kinship; Conversion; Christianity in India; Caste today; Religious Institutions; Hierarchy/Stratification; Sociology in/of India; Contemporary Karnataka; Sociology of Development and Environment; Natural Resource Conflicts; Issues of Livelihoods and Problems of Marginalized Class; Resource Rights; Subaltern Resistance and Movements and Political Ecology; Sociology and political economy of Finance; Political Economy of Development; Indian Political Economy; Theories of Money; Classical Political Economy; New and Old Institutionalism and History of Economic Thought; Issues of Gender and Sexuality; Medical Anthropology; Anthropology of the Body and Embodiment; Post-Colonial Studies; Post-Modern Feminist Studies and Southern Theories; Caste: Civility and Democracy; Civil Society, Ethnography Studies; Inclusion and Exclusion; Environmental Sociology; Social and Environmental Movements; Environmental Politics with a focus on Social inequality and Natural Resource Conflicts especially in Rural India; Issues of Livelihood and Problems of Marginalized Class and Political Ecology;

**Cell for Indian Science and Technology in Sanskrit**
Indian Science and Technology; Indian Philosophy; Logic and Epistemology; Sanskrit language; Panini and Grammar; Philosophy of Language.

---

**B.16) INDUSTRIAL ENGINEERING AND OPERATIONS RESEARCH (IO)**

[Interdisciplinary Group in Industrial Engineering & Operations Research]

Industrial Engineering and Operations Research (IEOR) at IIT Bombay conducts research in a unique and insightful manner in today's economic context. The programme offers a blend of theory, modeling and application, drawing from traditional as well as modern areas of operations research, together with a systems view derived from longstanding principles of industrial engineering. The program has a contemporary flavor, with specialized courses in Integer Programming, Game Theory, Markov
Decision Processes, Analysis and Control of Queues, Services Management, Supply Chain Management, Financial Engineering, Knowledge-based Systems, Neural Networks, System Dynamics, Data Analytics, Machine Learning and core courses like Optimization Techniques, Probability theory, Stochastic Models, and Simulation. Broad areas of application are in manufacturing systems, health care, supply chains, logistics, railway networks, finance, communication networks, services, infrastructure and other industrial systems; application of quantitative methods in quality and maintenance management systems; development and application of decision support, intelligent and knowledge-based systems, computer vision, text and multi media analytics and robotics.

The website http://www.ieor.iitb.ac.in has details on the faculty, students, research, teaching, academics, admissions, and other activities of the program.

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i). M.Tech./M.E. or equivalent degree in any branch of Engineering with adequate exposure to Industrial Engineering & Operations Research.

ii) B.Tech./B.E. or equivalent degree in any branch of Engineering

   OR

   M.Sc. or equivalent degree in Mathematics, Statistics, Operations Research

RESEARCH AREAS

i. Optimization: Models, Theory and Algorithms: Large-scale linear optimization; Mixed-integer and conic programming; Combinatorial optimization; Polyhedral theory: Nonlinear optimization; Dynamic programming; Theory, Algorithms and Computational methods for Mixed-Integer Linear and Nonlinear Optimization.

ii. Stochastic Models: Queueing Theory; Queueing models; Resource sharing; Parameter optimization; Performance Analysis; Polling systems; Applications in wireless communication.

iii. Stochastic Control: Stochastic dynamic programming (MDPs); Sensitivity analysis; Reinforcement learning; Diffusion equations; Viscosity solutions; Optimal control; Stochastic Approximation.

iv. Simulation Modeling and Analysis: Discrete-event simulation; System dynamics methodology; Hybrid (discrete-continuous) modeling; Distributed and parallel simulations; Statistical data analysis; Simulation - optimization: Multilevel Monte Carlo methods.

v. Game Theory: Mechanism design: Dynamic and stochastic games; Deterministic and stochastic differential games: Games with stopping; Approximate equilibria; Auctions; Network games and learning.

vi. Artificial intelligence-based methods: Search methods; Metaheuristics; Neural networks; Model predictive control.

vii. Logistics, Inventory and Transportation: Transport operations planning (road, rail, air, and sea); Network design; Capacity planning; Operations scheduling and routing; Fleet and crew planning and rostering; Timetabling and rolling stock management in rail services.

viii. Supply Chain Analysis: Information sharing; Coordination; Contract analysis and design; Real-time decision making; Performance and stability analysis; Reverse logistics and closed loop supply chains; Decision-making under uncertainties; Quality of service.

ix. Financial Engineering: Mathematical finance; Modeling and pricing of derivatives; Insurance and asset pricing; Portfolio management; Pricing; Revenue sharing and revenue management.
x. Planning, Scheduling and Control in Manufacturing Systems: Operations management; Project management; Quality management; Hierarchical production planning; Facilities planning; Reconfigurable and flexible systems; Enterprise resource planning; Product variety management; Dynamic, reactive and proactive scheduling.

xi. Data Science and Machine Learning: Supervised, semi-supervised and unsupervised machine learning models, Optimization for emerging machine learning problems, developing new and efficient machine learning models and algorithms for novel applications, transfer and continuous learning, statistical learning theory, online learning, reinforcement learning, multi-armed bandit problems, longitudinal data analysis, time series modeling and analytics.

xii. Deep Learning: Theoretical aspects of deep learning models, new deep learning tools for modern applications involving text, image, audio and video data, deep learning for industrial and business applications, deep learning for OR.

B.17) MANAGEMENT (MG)
[Shailesh J. Mehta School of Management]

ELIGIBILITY FOR ADMISSION

At least one of the following criteria must be met:

(i) B.E./B.Tech. or equivalent degree with 60% marks / 6.5 CPI (55% marks / 6.00 CPI for SC/ST) and at least two years of work experience and qualified in GATE/UGC–NET(Lectureship)/UGC-JRF/CSIR-NET (Lectureship)/CSIR-JRF or having CAT/GMAT/GRE score within the last five years.

(ii) Master of Management /ME/M.Tech./M.Pharma/M.Phil./ 2 years MBA or 2 years PG Diploma in Management from any institute recognized by Government body (AICTE/UGC/AIU) with 60% marks/6.5 CPI (55% marks / 6.0 CPI for SC/ST).

(iii) M.Sc. / M.A. / M.Com. / LLM / MCA or equivalent degree with 60% marks / 6.5 CPI (55% marks / 6.0 CPI for SC/ST) at post graduation level and qualified in GATE/UGC–NET(Lectureship)/UGC-JRF/CSIR-NET (Lectureship)/CSIR-JRF or having CAT/GMAT/GRE taken within the last five years.

(iv) CA with 60% marks / 6.5 CPI (55% marks / 6.0 CPI for SC/ST) in the preceding degree.

RESEARCH AREAS

i. Accounting
ii. Corporate Competitiveness
iii. Economics
iv. Entrepreneurship
v. Financial Management
vi. General Management
vii. Human Resource Management
viii. Information Systems
ix. Intellectual Property Rights
x. International Business
xi. Management of Information Technology
xii. Marketing Management
xiii. Operations Management
xiv. Organization Behaviour
xv. Project Management
xvi. Quality Management
xvii. Statistics and Operations Research
xviii. Strategy and Business Policy
xix. Technology Management
B.18) MATHEMATICS (MA)
[Department of Mathematics]

ELIGIBILITY FOR ADMISSION: In addition to the General Eligibility Criterion prescribed by the Institute as given in A.5, the candidate should also fulfill the following:

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

M.Sc. / M.A. or equivalent degree in Mathematics / Statistics / Computer Science
OR
M.Stat. or equivalent degree
OR
B.Tech./B.E. or equivalent degree in Engineering/Technology
OR
M.Tech./M.E. or equivalent degree in Engineering/Technology

RESEARCH AREAS

(i) Algebra and Number Theory: Commutative and Homological Algebra (Blowup algebras, Hilbert functions, local cohomology, projective modules, complete intersections, Gorenstein rings), Algebras with involution, Galois cohomology of classical groups, Representations of algebraic groups, Reductive groups and related structures, Automorphic forms, L-functions, Diophantine equations.

(ii) Analysis: Functional Analysis (Operator Theory, unbounded subnormals, Hilbert modules, Operator algebras), Numerical Functional Analysis (Approximate solutions of operator equations and eigenvalue problems, spline theory), Real Analysis (Mean periodic functions, generalized integrals), Several Complex Variables.

(iv) Geometry & Topology: Algebraic Topology (stable homotopy theory), Differential Topology (harmonic manifolds, matrix varieties), Algebraic Geometry (Schubert varieties, determinantal varieties, varieties over finite fields, Algebraic cycles, Moduli spaces of vector bundles), Lie groups (discrete subgroups, congruence subgroups, homogeneous spaces, probability measures), Ergodic theory.

Candidates are advised to visit the department webpage: http://www.math.iitb.ac.in for additional details on research topics.
B.19) MECHANICAL ENGINEERING (ME)
[Department of Mechanical Engineering]

ELIGIBILITY FOR ADMISSION
First Class or 60% marks (55% marks for SC / ST), as specified in the General Eligibility Criterion for admission in this brochure in :

OR
M.Tech./M.E. or equivalent degree in other branches of Engineering / Technology with an outstanding academic record for research areas consistent with the academic background of the candidates.

ii. B.Tech./B.E. or equivalent degree in Mechanical Engineering, Production Engineering, Industrial Engineering, Aerospace Engineering, Chemical Engineering, Metallurgical Engineering
OR
B.Tech./B.E. or equivalent degree in other branches of Engineering / Technology with an outstanding academic record for research areas consistent with the academic background of the candidates.

iii. For Additional department criteria please visit : https://www.me.iitb.ac.in/?q=Ph.%20D.%20Admissions

RESEARCH AREAS

i. **Heat Transfer and Thermodynamics**: Convective and radioactive heat transfer, Thermal Insulation, Transport properties, Combustion, Solar energy, Boiling, Condensation, Nanofluids.

iii. **Refrigeration and Air-conditioning**: Refrigeration systems, A.C. systems, Cryogenics, Miniature Cryorefrigerators, Absorption systems, Food preservation, Liquification systems.

v. **Thermal Power Engineering**: Power plant analysis and design, Nuclear engineering, Nuclear reactor heat transfer, Reactor physics problems, Isotope applications and nuclear techniques.

vi. **Fluid Power**: Fluid mechanics, Fluid Machinery, Fluid power control, Microfluidics.

vii. **Combustion and Flames**: Laminar and turbulent flame propagation, Flame stabilization, numerical study of reactive flows, turbulence and combustion modelling, Studies with vitiation of combustion air, Combustion in closed vessels, Fluidised bed combustion.

viii. **Combustion and Emissions in Gas Turbine**: Fuel injection problems, Performance studies, Alternate fuels, Emission studies, combustion chamber design, stability limits.

ix. **Automatic Control**: System modeling, Optimal control, Model reduction techniques, Computer control, Microprocessor based control and automation, Digital control techniques, Computer vision based control in automation and Robotics.

x. **Computer Aided Design**: Simulation optimization, Interactive graphics.
xi. **Stress Analysis**: Photoelasticity, Analytical methods based on complex variables, Numerical methods – Finite element and boundary element methods, etc.

xii. **Fracture & Fatigue**: Linear elastic fracture mechanics, Elastic-plastic fracture mechanics, Fracture of composites, Dynamic fracture, 3-D problems of fracture, Low and high cycle fatigue, Creep, Corrosion, Creep-fatigue interactions, Fatigue-creep-corrosion interactions, Finite element and boundary element method applications.

xiv. **Robotics, Kinematics and Control**: Analysis and optimal synthesis of planar and spatial mechanisms, Error analysis and calibration of robots, Programmable mechanisms, Identification and non-linear control of rigid and flexible manipulators, Design issues related to walking and running robots and mechanical logic gates.

xv. **Design Engineering**: Gears, Pressure vessel design, Tribology and lubrication, Machinery maintenance, Optimization, CAD, Textile Machinery.

xviii. Applications of IE & OR in Manufacturing, Logistics, Quality and Maintenance Systems.

xix. **MEMS, Nanotechnology, Miniaturization, Smart structure.**

xx. **Computer Aided Engineering (CAE), Numerical Modeling and Experimental Studies on Manufacturing Processes (Casting, Bulk and Sheet Metal Forming processes, Thermal and athermal Welding/joining process, Powder Metallurgy, Metal Injection Moulding, Conventional & Non-Conventional Machinery processes).**

xxi. Precision and micromanufacturing

xxii. Tool design and Development.

---

**B.20) METALLURGICAL ENGINEERING AND MATERIALS SCIENCE (MM)**

[Department of Metallurgical Engineering and Materials Science]

**ELIGIBILITY FOR ADMISSION**

The general eligibility criteria prescribed by IIT Bombay are bare minimum and mere possessions of same will not entitle the applicants to be called for written test/interview. The Department may restrict the number of applicants to be called for written test/interview to a reasonable limit, on the basis of qualifications and experience higher than that of the minimum prescribed in the advertisement. The candidate must satisfy the eligibility criteria in either one of the following qualifying degree:

i. M.Tech./ M.E. or equivalent degree in Engineering/Technology.
ii. B.Tech./B.E. or equivalent degree in Engineering/ Technology.
iii. M.Sc. Or equivalent degree in Chemistry, Materials Science, Physics and related science streams. Mathematics as a subject at the B.Sc. Level is mandatory.

See [http://www.iitb.ac.in/mems/en/phd-admissions](http://www.iitb.ac.in/mems/en/phd-admissions) for additional details.
RESEARCH AREAS

i. Metals: Process analysis, instrumentation and control, Iron and Steel making, deformation behavior and microstructure evolution during creep and superplasticity, mineral processing and extractive metallurgy, metal forming, mechanical behavior, welding, physical metallurgy, phase transformation, structure property relationship, thermomechanical processing and texture analysis.

ii. Ceramics: Electronic ceramics, bioceramics, glasses and glass-ceramics – electrical and optical properties, magnetic materials, dielectric and piezoelectric ceramics and devices, ceramic foams, industrial ceramics, high temperature ceramics, near net shape forming, gel casting, rheology of suspensions.

iii. Semiconductors and magnetic materials: Devices of thin film elemental semiconductors and alloy systems, surface treatment and surface engineering, chemical vapor deposition, structure property correlation in nanocrystalline magnetic materials, magnetoresistor materials. In addition, research into materials for sensors and batteries, superconductors, thermoelectric materials, organic semiconductors, solar cells, nanophotonics, synthesis and processing of ion conductors, materials for energy generation and storage. Materials for quantum computing and ultrahigh vacuum systems for thin film systems is going on in the Dept.

iv. Polymers and Composites: Polymer blends, Polymercarbon nanotube composites, polymer thin films, polymer nanocomposites, thermodynamic, mechanorheological, mechanical properties of polymers, responsive, functional and conjugated polymers, metal-matrix composites, structure property relations.

v. Wear and Corrosion: Fracture and failure, nondestructive evaluation, aqueous corrosion, metallurgy of corrosion, oil and gas corrosion, and protective coatings (paints, high temperature coatings etc.).

vi. Modeling and Simulations: Modeling of metallurgical processes, heat and mass transport, modeling of metal forming, Optimization, Monte Carlo simulations, Dislocation dynamics simulations, molecular dynamics simulations, phase field modelling, first principle calculations, crystal plasticity.

FACILITIES AVAILABLE

- Basic XRD with Xcelerator and thin film attachment
- 1600 Degree Horizontal Single Sample Dilatometer with Accessories
- Image Intensifier System and ExRay Source
- High Temp. Attachment and Texture and Stress Attachment Unit
- Air Vacuum Induction Melting System
- Hitachi Scanning Electron Microscope
- Simultaneous Thermal Analysis System
- R/S SST Plus with Coaxial Cylinder Rheometer
- Atomic Absorption Unit AVANTAP
- Carbon Sulphur Analyser
- High Temp. Furnaces 1700 Deg.C.
- UV Visible Spectrophotometer
- Thin film processing units
- MTS machines
- Vibrating sample magnetometer
- National facility on OIM and stress determination by XRD
- Potentiostat model Wenking PSG 581
- Automated 10 Ton/SCC systems.
- Thermogravimetry analysers.
- Computer Facilities.
- Optical & Stereo microscopes
- Acoustic Emission Systems.
- Wear and Corrosion Machines.
• Facilities for testing Paint and Other Coatings.
• Dynamic loop system.
• High temperature high pressure autoclaves
• DST-FIST High Performance Computing facility, along with CALPHAD and standard open source scientific software.
• DST-FIST SNOM and FIB-SEM facilities.

B.21) NANOTECHNOLOGY AND SCIENCE (NT)
[Centre for Research in Nanotechnology & Science (CRNTS)]

Nanotechnology research provides immense challenges and opportunities in the world of today. IIT Bombay has identified Nanosciences and Nanotechnology as thrust areas that enable cutting edge research traversing the boundaries of established disciplines. The Centre for Research in Nanotechnology and Sciences (CRNTS) was established to coordinate and consolidate such research happening in various academic and research units in the institute, as well as to foster the creation of new research areas.

More than fifty faculty members from various departments of the IIT Bombay with active research interest in the domain of nanotechnology and sciences are associated with the interdisciplinary program at CRNTS.

Realizing the importance of cross disciplinary, multidisciplinary and interdisciplinary interactions in this domain, this program requires the association of two research supervisors, preferably from two different academic entities (viz. departments or centres within IIT Bombay), to supervise the research of each Ph. D. candidate enrolled in CRNTS. This unique approach is envisaged to generate the specialized manpower required to contribute in this important area.

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in Electrical, Mechanical, Civil, Metallurgical, Materials, Chemical, Biomedical Engineering, Energy Science and Engineering and Environmental Science and Engineering

ii. B.Tech./B.E. or equivalent degree in Electrical, Mechanical, Civil, Metallurgical, Materials, Chemical, Biomedical Engineering, Energy Science and Engineering and Environmental Science and Engineering

OR

M.Sc. or equivalent degree in Physics, Chemistry, Biological and Environmental Sciences

RESEARCH FACILITIES

Facilities for advanced characterization such as Field Emission Gun Transmission Electron Microscope (FEGTEM – 200kV and 300 kV) with EELS, STEM, EDS, Field Emission Gun Scanning Electron Microscope (FEGSEM) with EDS and WDS, Cryo SEM, Environmental Scanning Electron Microscope, Time of Flight Secondary ion Mass Spectrometer (TOF-SIMS), Laser ablation inductively coupled Mass spectroscope (LA-ICPMS), Laser Raman spectrometer, FTIR microscope, FACS cell sorter, Small Angle X-Ray Scattering, Atom Probe Tomography, CHN analyser, Thermal Gravimetry Analyzer, Gas Chromatograph with High Resolution Mass Spectrometer (GC-HRMS), Liquid Chromatography Mass Spectrometer (LCMS), High Resolution Liquid Chromatography Mass Spectrometer (HR-LCMS), Orbitrap Liquid Chromatograph Mass Spectrometer (HR-LCMS Orbitrap), Electron Spin Resonance Spectrometer, Nuclear Magnetic Resonance Spectrometer, Inductively Coupled Plasma-Atomic Emission Spectroscopy, Two-Dimensional Gas Chromatography with Time-of-Flight Mass Spectrometer (GC-GC-TOF-MS) exist in CRNTS. These instruments are being used by about 2500 users from IIT Bombay, other academic institutions from the country, and industry. CRNTS Ph. D. students get the opportunity to use these facilities first hand and to get a unique understanding of application of these sophisticated instruments in a large variety of scientific and engineering fields.
In addition to this, IIT Bombay has excellent facilities for the fabrication and characterization of various nanoelectronics devices, photovoltaic devices, and sensors.

RESEARCH AREAS

Nanomaterials, Nanosensors, Nanoelectronics, Nanobiotechnology, Nanomanufacturing, Nanofluidics and Computational research in nanosystems.

SELECTION PROCEDURE

Selection is by a 2-stage interview and written test. First stage interview/written test will be in a department specified by prospective guides. Second stage interview will be in CRNTS. Ph.D. topics being offered are available at http://goo.gl/AgAcFu, along with names of supervisors, co-supervisors, eligibility criteria and departments in which the first round of interview is to be conducted. Candidates are required to apply directly to these departments. In case they are shortlisted, according to the criteria of the departments, they should mention at the time of interview that they are interested in Ph.D. Topics offered by CRNTS. Second round of interview of further shortlisted candidates will be conducted in CRNTS as given in the schedule. Note that the candidates should apply to the department(s) mentioned http://goo.gl/AgAcFu

B.22) PHYSICS (PH)
[Department of Physics]

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in Engineering Physics, Aerospace Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Mechanical Engineering, Metallurgical Engineering, Computer Science.

ii. M.Sc. or equivalent degree in Physics / Chemistry / Mathematics

OR

B.Tech./B.E. or equivalent degree in Engineering Physics, Aerospace Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Mechanical Engineering, Metallurgical Engineering, Computer Science.

RESEARCH AREAS

1. Condensed Matter Physics-Theory

Electron correlation in one and many component quantum fluids, Many body effects in inhomogeneous electron systems and metal surfaces, Quantum magnetism, Algorithms for condensed matter theory, Theoretical studies on magnetism and superconductivity, Electronic structure of ordered and disordered alloys, insulators, conjugated polymers and clusters, Strongly correlated electron systems, Novel magnetic systems, Development of wave function based ab-initio methods for electronic structure calculations, Study of control and thermodynamics of driven quantum systems with quantum information theory tools, ultrafast electron dynamics in solids.

2. Condensed Matter Physics-Experimental

Magnetic oxide thin films and metallic multilayers for various applications, Spintronic materials, Nano and bio magnetism, Strongly correlated electron systems, Quantum magnetism, Low-dimensional magnets, Metal-insulator transitions, Quasi 1d/2d magnetic systems and doping effects. Dilute magnetic semiconductors, Semiconductor nanostructures. Electrical and optical properties of semiconducting oxide and nitride thin films, Nanoparticles and nanostructured thin films, Langmiur-Blodgett organic multilayers, Conducting polymers. Bilayer GaAs quantum wells, Organic semiconductors, Perovskite semiconductors, Optoelectronics, Photodetectors & photovoltaics, Solar cells, 2D and other materials for energy applications.
3. Optics/Photonics/spectroscopy-Theory:

4. Optics/Photonics/Light-matter interactions/Nano-photonics/Ultrafast phenomena/ Spectroscopy -Experimental

Light-matter interactions in various types of nanostructures and other materials like organic molecules, Graphene, MoS_2, Quantum wells, Quantum dots and their hybrid nanostructures, Plasmonics, Sensing, Nanoscale light sources (lasers/LEDs), Solar cells, All-optical switching,

Highly spatially and temporarily resolved (ultrafast) spectroscopic investigations of optical response using various techniques, Development of 2D materials based nanoscale light sources, Photodetectors and data communications, Photovoltaic materials and devices for energy, Metamaterials, Metasurfaces, Magneto-optics, Micro-spectroscopy

5. High Energy Physics – Theory

Properties and interactions of fundamental particles, Gauge field theories and applications to cosmology, Neutrino physics and CP violation, String theory, Collider physics and QCD spin physics.

6. High Energy Physics and Nuclear Physics-Experimental

Properties of heavy ion collisions at ultra-relativistic energies involved in ALIC and CMS experiments at CERN. Experimental Nuclear Physics and Nuclear Medicine

7. Astronomy, Cosmology, Gravity – Theory

Cosmology and Gravity

8. Astronomy, Cosmology, Gravity – Experimental

Cosmology and Gravity, Gravitational Wave Physics, Multi-messenger and observational astronomy, Astronomical instrumentation

Biophysics, complex fluid polymers, Stochastic processes, Non-equilibrium dynamics, Slow glassy dynamics, Granular inelastic gases

Bulk/interfacial Rheology, Synchrotron X-ray scattering, Particle tracking

B. 23) POLICY STUDIES [PS]
(Centre for Policy Studies)

The Centre for Policy Studies (CPS) at IIT Bombay was conceived as a centre for research, education, training, and practice. In order to meet a growing need and demand for policy professionals in India, it was thought necessary that CPS have a Master's in Public Policy (MPP) programme as well as a PhD
programme. CPS launched its PhD in Public Policy (MPP) programme from the Autumn semester of 2017.

CPS envisions myriad ways in which its PhD and MPP programmes and graduates from these programmes can contribute to IIT Bombay's intellectual expansion as well as to India’s polity and society. The aim is to produce professionals or academics who seek to serve or lead in the interest of the public. These academic programmes will reflect the changing dynamics in today's world and the need for policy to keep up with technological advancements, globalization, nuanced and complex public debates, and the growing trend of building rights-based democracies. Policy can no longer be contained within the realm of government and bureaucracy; it has percolated into civil society, academic institutions, and the private sector. Through the programmes, CPS aims to give its students tools which are applicable in diverse situations and teach students how to adapt to various fields, contexts, or situations. Students of the programmes can then find themselves fitting into and contributing to the public or private sectors, working within the government, or in the not-for-profit/NGO sector. They may choose to work for large corporations as analysts or lobbyists, or may do policy research in IOs, think tanks, or universities. Finally, CPS in its academic programmes aims to capitalize on IIT Bombay’s existing institutional strengths and build a department that can be a hub for public policy research and expertise. CPS's academic programmes integrates public policy, social sciences, and technology.

ELIGIBILITY FOR ADMISSION

At least one of the following criteria must be met:

i. B.E/ B.Tech or equivalent degree with 60% marks/6.0 CPI (55% marks/5.5 CPI for SC/ST) and at least two years of work experience and qualified in GATE/UGC-NET (Lectureship)/UGC-JRF/CSIR-NET (Lectureship)/CSIR-JRF or having CAT/GMAT/GRE with a valid score at the time of the interview.

ii. MBA/ME/M.Tech/M.Phil/ from any institute recognized by a Government body (AICTE/UGC/ AIU) with 60% marks/6.0 CPI (55% marks/5.5 CPI for SC/ST).

iii. M.Sc/M.A/ M.Com/LLB/MCA or equivalent degree with 60% marks/6.0 CPI (55% marks/5.5 CPI for SC/ST) at post-graduation level and qualified in GATE/UGC-NET Lectureship (LS)/UGC-JRF/CSIR-NET Lectureship/CSIR-JRF or having GMAT/GRE with a valid score at the time of the interview.

The prospective candidate will be required to submit a sample of recently published writing(s) if any, on a relevant topic as well as a research proposal (1500 words) on a topic of his/her research interest along with a Statement of Purpose. The proposal should contain (a) problem identification, (b) brief review of literature and (c) proposed methodology.

A written examination will be conducted for all students who meet the above criteria. An interview will be subsequently conducted by faculty members interested in the area and in the specific candidate.

The programme structure is structured to keep half of the credit load in the Policy area, and the other half is to be divided between (i) the courses in the sectoral area of interest e.g. water, energy, gender, communication etc. and (ii) Institute electives which would complement the policy courses and the domain courses, taking into account the student's background.

Each student will have to indicate the domain area e.g. water, energy, gender, information economy and others, in which s/he wishes to carry out doctoral research on policy related aspects. Ideally the student will have a guide and a co-guide–one having expertise in the policy arena and the other in the concerned domain. The credit load will be designed to suit this requirement.
Comprehensive Examination for acceptance of Doctoral Candidature
A final qualifying examination will be held for acceptance of the doctoral candidature. This will include two written papers; one on Research Methodology and the other on the chosen topic of research. This will be followed by an oral examination. The examination will be scheduled in the beginning of the 3rd Semester.

RESEARCH AREAS
A candidate is free to identify and indicate an area of Policy research of her/his interest. This is an illustrative list:

i. Energy
ii. Water
iii. Health and Nutrition
iv. Education
v. Agriculture
vi. Gender
vii. Climate change
viii. Information economy and governance
ix. Transportation including the railways

B.24) SYSTEMS AND CONTROL ENGINEERING (SC)
[Interdisciplinary Group in Systems & Control Engineering]

ELIGIBILITY FOR ADMISSION
First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in any branch of Engineering
ii. B.Tech./B.E. or equivalent degree in any branch of Engineering
   OR
   M.Sc. or equivalent degree in Mathematics or Physics

RESEARCH AREAS
Large scale systems, system reduction, nuclear reactor control, sliding mode control (continuous & discrete), power systems – stability & control, modeling, control & implementation of smart structures, space launch vehicles – stability & control, flexible manipulators, stability & control of multirate output feedback based control (POF/FOS).

NMR spectroscopy, quantum information and control.

Nonlinear system analysis and control, adaptive control, geometric mechanics, Lagrangian and Hamiltonian mechanics.

Optimal control, constrained and optimization based control, in particular, stochastic model-predictive/receding-horizon control.

Stochastic control, learning theory, information theory.

Cooperative control of multi-agent systems, resource allocation, team theory and its application, decentralized control, cooperative and network control.

Reconfigurable hardware, embedded control systems, robotic path planning algorithms, hardware/software codesign.

Switched and hybrid systems, control under communication and computation constraints.
Game theory, optimization, economics, combinatorics and systems biology.

Control of distributed parameter systems, parameter estimation for PDEs, motion planning for PDEs.

All applicants are advised to look at the faculty webpage (www.sc.iitb.ac.in/coreFaculty.html) and the corresponding research areas before applying.

B.25) TECHNOLOGY & DEVELOPMENT (TD)
[Centre for Technology Alternatives for Rural Areas(CTARA)]

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in any branch of Engineering

ii. B.Tech./B.E. or equivalent degree in any branch of Engineering

OR

M.Sc. or equivalent degree.

Adequate exposure/experience in carrying out Field Work and/or Technology Transfer / Project Management and to Contemporary International issues related to Technology and Development is desirable. A clear Statement of Purpose (SoP) along with a research project proposal (~1000 words) must accompany the application. Admission will be made through a written-test followed by an interview.

RESEARCH AREAS

Technology and Development
Rural/Agro-based Industries
Natural Resources (Energy, water, Land use)
Environment, Climate Change and Development
Public Policy and Governance
Agriculture and Biodiversity
Rural and regional planning

B.26) Urban Science & Engineering (US)
[Centre for Urban Science & Engineering (C-USE)]

The Centre for Urban Science and Engineering is an interdisciplinary centre for research, teaching and skilled manpower development with the primary mandate of creating innovative and holistic solutions to deliver urban services related to housing, infrastructure, energy, health and cultural enlightenment, while mitigating the effects of natural disasters and climate change. The centre will combine the latest advances in science and technology with sustainable, equitable and human-friendly design, to create new products and solutions that would ultimately lead to the betterment of life for the rapidly increasing urban population in the developing world.

ELIGIBILITY FOR ADMISSION

First Class or 60% marks (55% marks for SC/ST), as specified in the General Eligibility Criterion, in the qualifying degree:

i. M.Tech./M.E. or equivalent degree in any branch of Engineering

OR

ii. B.Tech./B.E. or equivalent degree in any branch of Engineering

OR
Bachelor's degree in Architecture, Urban Planning or related disciplines; with and at least two years of work experience and a valid score in GATE/UGC-NET (Lectureship)/UGC-JRF/CSIR-NET (Lectureship)/CSIR-JRF exams, to be eligible for TA category.

RESEARCH AREAS

Ph.D. students will be engaged in interdisciplinary research that will focus on urban challenges of megacities. They will work with faculty and researchers from various departments and centres at IIT Bombay in the following domains, including but not limited to:

- **Planning and Design**: Housing, Land use policies, Public Spaces, Risk Management
- **Policy and Governance**: Housing Economics, Health (Diagnostics, Awareness), Education Employment, Environment
- **Infrastructure**: Transportation and Land use, Urban water, Waste Management, Smart Energy Buildings
- **Informatics**: Citizen Science, Urban Knowledge Banks, Geo-Spatial Technologies
# Fees, Deposits & Hostel Rent for Ph.D. students

(subject to revision as per MHRD/BoG decision)

**Sponsorship Letter for Full-time Ph.D. Candidates (SW)**
(To be typed on letterhead of the sponsoring organization)

To
The Director,
Indian Institute of Technology, Bombay
Mumbai – 400 076.

**Sub: Sponsoring of an Employee for Ph.D. programme**

Dear Sir,

We hereby sponsor the candidature of Shri./ Smt./ Kum______________________________, employed in our organization as _________________ (designation) for joining his / her Ph.D. Programme in _________________ at your Institute as a full-time candidate.

He/ She is employee of our organization since______. We shall bear the total expenses of his / her studies. We shall fully relieve him/ her of his/ her duties in the organization during the entire period of the Ph.D. programme, to enable him/ her to devote full time to his/ her studies in the Institute.

Signature and Seal of the Sponsoring Authority

================================

================================
To

The Director,
Indian Institute of Technology, Bombay
Mumbai – 400 076.

Sub: Relieving an employee on Study Leave

Dear Sir,

We hereby relieve Shri./ Smt./ Kum. ____________________________, employed in this Institute as ________________ (designation) on _____ (full-pay/ half-pay/ no-pay) leave for joining Ph.D. programme at IIT Bombay, for a period of _____ years (at least three years).

Signature of Head of the Institute and Seal of the Institution

===================================================
Sponsorship Certificate for Ph.D. External Registration (EX)
(To be typed on letterhead of the Sponsoring Organization)

Name of the sponsoring organization: ________________________________________________

Address: ________________________________________________________________________

Present Designation of the applicant: _________________________________________________

Present status of the applicant: _____________________________________________________
(Permanent/Quasi Permanent/Temporary)

Division where research work is proposed to be done: ________________________________

Name of supervisor from the sponsoring organization: _________________________________
(Bio-data of supervisor to be enclosed giving details of designation, qualification, research experience etc.)

Details of facilities relevant to the research problem which will be made available to the candidate by the organization.

Statement of proposed Co-supervisor (external)

If Shri / Kum. / Smt. __________________________________ is registered for the doctorate degree, I agree to act as his/ her research Co-supervisor along with the research Supervisor from IIT Bombay.

                      Signature of proposed Co-supervisor (external)

If Shri./ Kum./ Smt. __________________________________ is admitted to the Ph.D. programme, we shall allow him/ her to undergo the programme of studies at IIT Bombay.

Further, if Shri./ Kum./ Smt. __________________________________ is admitted to the Ph.D. programme, we shall fully relieve him/her from normal duties to complete the course work requirement (and qualifier examination, if applicable) at IIT Bombay.

During the period of Doctoral programme, the candidate will be permitted to carry out his / her research work at our laboratories / organization and will be given the required facilities.

We also give our consent to ____________________________ of our organization to be the Co-supervisor (external) of the Ph.D. thesis, along with a faculty member of IIT Bombay as the Supervisor.

                      Signature and Seal of the Sponsoring Authority

====================================
Dear Sir,

This is to certify that Shri./Smt./Kum. ____________________ is an employee of our College/University since ______________ and is currently serving as __________________________ (designation).

Our College/University has no objection to his/her application in the ______________ (department) to join the Ph.D. Programme at IIT Bombay, under College Teacher (CT) category.

Further, if selected, the College/University has "NO OBJECTION" to allow Shri./Smt./Kum. ____________________ to undergo the programme of studies and also to fulfill the coursework requirements (and qualifier examination, if applicable) at IIT Bombay.

Signature & Seal of the Head of the College/University

[Bio-data of proposed Co-supervisor (external), which is optional, to be enclosed giving details of designation, qualification, research experience, etc.]

===============================================

=
STATEMENT OF PURPOSE FOR ALL ACADEMIC UNITS

Statement of Purpose (SOP) is your opportunity to share with the admission committee your thoughts and feelings about Postgraduate studies at IIT Bombay including your preparation for the same. Briefly describe past project/research work done by you. Restrict yourself to 500-600 words. The personal SOP will aid the admission committee in evaluating your application.

(i) If you are applying for more than one academic discipline, you may include separate SoP for each discipline.

(ii) If you are applying to Department of Humanities & Social Sciences, Policy Studies, CTARA or CSRE, you need to upload Statement of Purpose as well as research proposal. The Research Proposal for applying to Policy Studies, Technology & Development (CTARA) should contain (a) problem identification, (b) brief review of literature and (c) proposed methodology. The SOP for CSRE should refer to one or more topics of interest FROM THE LIST of topics announced on CSRE webpage http://www.csre.iitb.ac.in.

(iii) If you are applying to Shailesh J. Mehta School of Management, you are required to submit a sample of your recently published writings on a relevant topic or research proposal (1500 words) on a topic of your interest in place of Statement of Purpose. The proposal should contain a) problem identification, b) brief review of literature, and c) methodology.

(iv). Candidates applying to IDC are required to submit a SOP along with a 1500 word proposal that should specify (a) research area (b) brief review of literature and (c) methodology. The candidates have also to submit a recent work or paper related to their area of research.

(v). Candidates applying to Educational Technology are required to submit a Statement of Purpose containing (a) your interests and motivation for applying to ET (max. 50 words), (b) relevance of your recent and current activities (max. 200 words), (c) details about your academic interests including (but not limited to) your areas of interest, a problem that interests you, and what you plan on doing after completing your Ph.D. (max. 250 words).
